

NIS2 Assessment

G Cloud 15 - LOT3

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

NIS2 Assessment

Service Description

The NIS2 Assessment Service supports organisations preparing for NIS2 and UK NIS compliance through CAF-aligned gap analysis and evidence-led recommendations. It works with client legal teams on regulatory scope, delivering auditable control mapping, prioritised remediation, and incident reporting readiness, with ongoing compliance supported via our vCISO service.

Features

- NIS2 Assessment
- Assessment based on NIS2
- Kick-off call
- Documentation analysis
- Structured Interviews
- NIS2 assessment report
- Business continuity & supply chain
- Remediation and ongoing compliance services

Benefits

- Identifies compliance gaps before NIS2 enforcement begins
- Enhances resilience of network and information systems.
- Reduces risk of sanctions and regulatory penalties.
- Improves incident response and recovery
- Strengthens supply chain and business continuity planning
- Boosts staff awareness and security best practices
- Provides expert guidance for ongoing security improvements

Constraints

The NIS2 Assessment Service does not include constraints such as remote-only support. Activities may be conducted in-person or remotely, depending on client needs and agreement. There are no restrictions related to sector, company size (other than NIS2 applicability), or geographic coverage. The service is designed to be flexible and comprehensive for organisations preparing for NIS2 compliance.
