

Intelligent Event-Driven Integration Architecture

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Intelligent Event-Driven Integration Architecture

Service Description

A premium service for enterprises seeking robust, real-time data exchange and streamlined application workflows using event stream processing and advanced messaging middleware.

Features

- Real-time event stream ingestion and processing capabilities
- Seamless integration between heterogeneous enterprise applications
- Scalable, fault-tolerant messaging middleware deployment
- Low-latency message delivery for critical business operations
- Support for industry-standard protocols and APIs
- Centralized monitoring and management of integration flows
- Dynamic workload scaling based on traffic and demand
- Automated recovery and failover for high availability
- Role-based access and robust security for data in transit
- Comprehensive documentation and knowledge transfer to client teams

Benefits

- Accelerates time-to-value for digital initiatives
- Ensures continuity of business-critical workflows
- Reduces operational complexity of multi-system integration
- Enhances real-time decision making with live data streams
- Minimizes message loss and system downtime
- Future-proofs architecture with scalable, modular design
- Increases security for enterprise data exchange
- Improves visibility and governance over data flows
- Enables faster response to emerging market opportunities
- Empowers IT teams with operational autonomy and clarity

Constraints

Requires existing cloud or on-premises infrastructure; success depends on client system readiness.
