

ISO27001 Gap Analysis

G Cloud 15 - LOT3

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

ISO27001 Gap Analysis

Service Description

The ISO 27001 Gap Assessment provides an integrated review of your organisation's security compliance, identifies gaps against ISO 27001 controls, and delivers actionable recommendations. It includes policy, process, and documentation review, supporting certification readiness and strategic security improvements.

Features

- ISO27001 Gap Analysis
- Integrated overview of internal and external security compliance
- Assessment against ISO 27001 controls and requirements
- Review of policies, processes, documentation, and controls
- Identification of compliance gaps and improvement areas
- Actionable, detailed report with proposed certification scope
- Recommendations for resource allocation and certification timeline
- Expert consultants with up-to-date security knowledge

Benefits

- Maximises return on investment in security management
- Provides clear insight into compliance and risk management
- Delivers expert, actionable advice for certification readiness
- Ensures alignment with ISO 27001 regulatory requirements
- Optimises security budget and resource allocation
- Supports development of a robust security management strategy
- Sets a clear path for ongoing security improvement

Constraints

The ISO27001 Gap Analysis service is designed to be flexible and tailored to client requirements. Assessments and recommendations can be delivered either on-site or remotely, depending on client preference and agreement. No constraints such as remote-only support or sector limitations are specified in the official service documentation.
