

Digital Trust Enablement for Secure Data Infrastructures

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Digital Trust Enablement for Secure Data Infrastructures

Service Description

A premium consulting service empowering enterprises to establish digital trust, enhance data security, and mitigate risks across complex IT infrastructure ecosystems.

Features

- Comprehensive assessment of current data security posture and vulnerabilities
- Implementation of frameworks to ensure digital trust and regulatory compliance
- Zero Trust architecture adoption for systems infrastructure software
- Automated policy management for access control and data encryption
- Security monitoring and real-time threat detection across core platforms
- User and device identity management with advanced authentication controls
- Best practice recommendations tailored for industry and compliance needs
- Integration support for security tools and infrastructure applications
- Incident response planning and forensics readiness enablement
- Executive reporting and board-level risk visibility dashboards

Benefits

- Protects sensitive business data from unauthorized access and breaches
- Builds stakeholder confidence in overall digital operations and data handling
- Reduces risk exposure through industry-proven security architectures
- Ensures proactive compliance with current and emerging regulations
- Strengthens organizational resilience against cyber threats
- Enables business agility by simplifying security operations
- Enhances transparency for clients, regulators, and partners
- Accelerates adoption of secure, trusted digital platforms
- Improves decision-making with actionable security intelligence
- Supports secure innovation and digital transformation initiatives

Constraints

Requires access to infrastructure systems and key data owners; excludes legacy hardware without vendor support.
