

Microsoft Power BI analytics and reporting

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Microsoft Power BI analytics and reporting

Service Description

Transform scattered data into clear, actionable insights. Address inconsistent reports or where dashboards lack interactivity, and decision-making is slow. Integrate multiple systems and optimize analytics, and unlock the full potential of Power BI for accurate, timely business intelligence.

Features

- Connect to hundreds of cloud and on-premises data sources
- Create interactive dashboards with real-time data updates
- Use Power Query for streamlined data transformation and preparation
- Leverage AI-powered insights for trend detection and predictions
- Enable natural language queries with Q&A feature
- Access dashboards anywhere with Power BI Mobile apps
- Publish and share reports via Power BI Service
- Integrate seamlessly with Microsoft Teams and SharePoint
- Handle large datasets efficiently with optimized performance
- Track KPIs and scorecards using Power BI Goals

Benefits

- Empowers data-driven decisions through real-time insights
- Improves collaboration with shared dashboards and reports
- Reduces reporting time via automated data refresh
- Enhances accuracy with centralized, consistent data models
- Supports scalability for large datasets and enterprise needs
- Provides AI-driven analytics for predictive insights
- Enables secure access with role-based permissions
- Delivers cost efficiency by consolidating analytics tools
- Improves compliance through governance and audit features

- Boosts productivity with self-service BI capabilities
