

Unified Data Integration & Intelligence Framework Consulting

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Unified Data Integration & Intelligence Framework Consulting

Service Description

Comprehensive advisory and implementation service for organisations seeking advanced, composite data integration and intelligence frameworks to enhance application development, data management, and business insights.

Features

- Assessment of current data integration landscape and business priorities
- Custom design of composite data frameworks for complex environments
- Implementation of scalable data ingestion and transformation pipelines
- Automated data quality monitoring and remediation modules
- Integration of real-time and batch data sources for unified intelligence
- Deployment of advanced analytics and data intelligence tools
- Architecture leveraging cloud-native and hybrid platforms as needed
- Robust data governance and compliance framework design
- Comprehensive documentation and knowledge transfer to client teams
- Structured change management and adoption support throughout rollout

Benefits

- Accelerates time-to-value for digital transformation initiatives
- Enables seamless, secure flow of data across business units
- Reduces manual integration and reconciliation workloads
- Improves decision-making through integrated, high-quality intelligence
- Supports regulatory compliance and data privacy requirements
- Enhances scalability to handle future data and business growth
- Optimizes operational costs via efficient architecture choices
- Facilitates collaboration between IT and business stakeholders
- Empowers analytics and AI adoption with trusted data assets
- De-risks large-scale integration projects with proven methodologies

Constraints

Requires stakeholder engagement and access to relevant data systems; cloud enablement may be needed.
