

Healthcare Operations Optimisation Consulting

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Healthcare Operations Optimisation Consulting

Service Description

Strategic consulting to transform healthcare operational efficiency for providers and public health organisations through best-in-class digital solutions and process refinement.

Features

- Comprehensive assessment of current healthcare operational workflows
- Bespoke optimisation roadmap tailored to healthcare environments
- Integration planning for electronic health record systems
- Stakeholder alignment workshops for clinical and admin teams
- Process automation recommendations for patient and resource management
- Compliance review against regulatory healthcare standards
- Digital tools selection and vendor-neutral recommendations
- Change management and adoption support for end users
- Performance analytics baseline and KPIs for ongoing improvement
- Futureproofing strategy for technology and policy evolution

Benefits

- Boost operational efficiency, reducing waste and bottlenecks
- Enhance patient care through streamlined administrative processes
- Lower operational costs via intelligent automation opportunities
- Support compliance with evolving healthcare regulations
- Empower staff with proven change management frameworks
- Accelerate time-to-value for digital healthcare investments
- Improve data-driven decision-making across care delivery
- Strengthen engagement between clinical and back-office teams
- Lay foundation for scalable, integrated digital health platforms
- Drive measurable improvements in healthcare performance metrics

Constraints

Requires access to healthcare operational data and stakeholder commitment to improvement.
