

Seamless Application Integration Enablement

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Seamless Application Integration Enablement

Service Description

Expert-led service for organisations needing robust, secure, and scalable integration of diverse business applications via advanced connectivity software.

Features

- End-to-end integration planning aligning with enterprise architecture
- Custom adapter and plug-in selection for major business platforms
- Low-code/no-code orchestration workflows for rapid deployment
- Automated data transformation and mapping between heterogeneous systems
- API management, security, and version governance as standard
- Legacy and cloud-native system connectivity without disruption
- Ongoing performance monitoring and integration health dashboards
- Error handling, logging, and alerting tailored to business needs
- Compliance-ready designs for data integrity and privacy
- Comprehensive documentation and knowledge transfer for IT teams

Benefits

- Accelerates time to value for digital transformation initiatives
- Improves operational agility by unifying data and workflows
- Reduces manual effort and human error through automation
- Enhances scalability as business demands and integrations grow
- Minimizes integration project risks with proven best practices
- Protects sensitive data through robust security controls
- Optimizes IT investments by leveraging existing assets
- Facilitates compliance with industry and regulatory mandates
- Empowers teams with actionable integration health insights
- Enables faster innovation by simplifying new app connections

Constraints

Requires access to source and target systems' APIs; dependent on existing network security policies.
