

AI-Powered Intelligent Document Processing Suite

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

AI-Powered Intelligent Document Processing Suite

Service Description

Transform document-heavy operations using advanced AI to automate extraction, classification, and insights. Ideal for enterprises seeking high-accuracy digital document workflows.

Features

- Automated extraction of structured and unstructured data from diverse documents
- Intelligent document classification and content tagging using advanced AI models
- Real-time validation and error correction for high data integrity
- Seamless integration with existing enterprise applications and workflows
- Natural language processing for context-aware understanding of documents
- Customisable templates and workflows tailored to industry and business needs
- End-to-end security including encryption and access controls
- Continuous learning to improve model accuracy and processing speed
- User-friendly dashboard for monitoring, auditing, and reporting
- Supports multi-format inputs, including PDF, scanned images, and digital forms

Benefits

- Significantly reduces manual document processing time and costs
- Enhances data accuracy and reliability in business-critical workflows
- Improves compliance with regulatory and data governance standards
- Accelerates decision-making with instant access to extracted insights
- Boosts employee productivity by eliminating repetitive tasks
- Easily scales to accommodate business growth and data volume
- Improves customer experience with faster, error-free document handling
- Facilitates seamless digital transformation across departments
- Enables real-time analytics for continuous business improvement
- Reduces operational risk by mitigating human errors and data loss

Constraints

Requires access to digital and scanned documents; integration subject to compatible APIs.
