

# **Enterprise Integration Platform Enablement**

**G Cloud 15 - LOT2A**

# 1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

## 2. Insight for the Public Sector

### Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

### Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

## **Our Approach: Consulting, Lifecycle, & Managed Services**

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

## 3. Services

### Service Name

Enterprise Integration Platform Enablement

### Service Description

A premium consulting service guiding enterprises to adopt integration platforms for seamless connectivity, process automation, and data orchestration across complex application and infrastructure landscapes.

### Features

- Strategic integration platform selection tailored to business goals
- Custom architecture design for scalable enterprise integration
- End-to-end process and workflow automation mapping
- Seamless connectivity across on-premises and cloud applications
- Robust API management and governance consulting
- Legacy system interoperability assessments and roadmaps
- Data transformation and mapping workflow blueprints
- Continuous integration and deployment enablement
- Security, compliance, and risk management advisory
- Change management and user adoption acceleration programs

### Benefits

- Accelerates digital transformation and business agility
- Reduces manual integration overhead and operational costs
- Improves real-time data flow and process visibility
- Future-proofs integration with scalable architectures
- Enables rapid onboarding of new technologies and partners
- Enhances governance and reduces integration risks
- Boosts collaboration between IT and business teams
- Strengthens security and regulatory compliance posture
- Supports seamless cloud and hybrid environment integration
- Maximizes ROI from existing technology investments

## Constraints

Requires stakeholder alignment, existing infrastructure assessment, integration platform licensing.
