

Power Platform - Model driven apps

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Power Platform - Model driven apps

Service Description

Address challenges building scalable, secure apps tied to data. Manual processes slow productivity, and integrating analytics into workflows is complex. Design and deploy Power BI Model-Driven Apps that streamline operations, ensure consistency, and deliver actionable insights within business applications.

Features

- Data-Centric Design – Built on Microsoft Dataverse for structured data.
- Responsive UI – Automatically adapts to desktop, tablet, and mobile.
- Role-Based Security – Granular access control for users and teams.
- Business Process Flows – Guide users through consistent, repeatable workflows.
- Rich Data Visualization - Charts, dashboards, and views for actionable insights.
- Declarative Logic – Configure rules without writing complex code.
- Integration Ready – Connect seamlessly with Microsoft 365 and Dynamics.
- Scalable Architecture – Supports enterprise-grade performance and growth.
- Offline Capability – Access and update data without constant connectivity.
- AI and Automation – Leverage Power Automate and AI Builder tools.

Benefits

- Improved Efficiency – Streamlines processes through automation and guided workflows.
- Enhanced Data Management – Centralized, secure storage in Microsoft Dataverse.
- Rapid Development – Build apps quickly with minimal coding required.
- Consistent User Experience – Standardized interface across devices and platforms.
- Scalable Solutions – Easily adapt to growing business needs and complexity.
- Better Decision-Making – Real-time dashboards and analytics for actionable insights.
- Seamless Integration – Connect with Microsoft 365, Dynamics, and external systems.
- Reduced IT Dependency – Empower business users to configure without developers.

- Compliance and Security – Enterprise-grade security and role-based access controls.
- Future-Ready – Supports AI, automation, and evolving digital transformation goals.
