

Enterprise Architecture Cloud Solutions Governance & Assurance

G Cloud 15 - LOT3

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Enterprise Architecture Cloud Solutions Governance & Assurance

Service Description

This service is designed for UK public sector organisations seeking to establish and operate a robust Architecture Governance and Solution Design Authority (SDA) model. It covers Solution Design Review (SDR) and In-Flight Assurance (IFA), ensuring cloud and hybrid solutions are aligned with government strategy, standards, and future-state architecture.

Features

- Establishes Solution Design Authority governance for public sector cloud projects
- Conducts formal Solution Design Reviews with transparent approval processes
- Provides In-Flight Assurance, delivery monitoring and reporting during delivery
- Maintains architecture artefacts repository and enforces versioning discipline
- Enforces reference architectures, standards, and technology guardrails for compliance
- Offers strategic advisory and oversight aligned to government digital strategy
- Facilitates stakeholder engagement and structured decision-making forums
- Delivers assurance reporting and escalation to governance boards
- Manages change control, handover, and knowledge transfer at closure
- Adapts engagement model to basic, standard, and complex needs

Benefits

- Improved design consistency and reduced architectural risk for projects
- Faster decision cycles with clear Solution Design Review outcomes
- Early detection of delivery deviations via In-Flight Assurance monitoring
- Enhanced stakeholder confidence and traceable approvals throughout delivery
- Strong alignment to future-state architecture and government digital strategy
- Reusable architecture artefacts and documented standards for future use
- Clear scope boundaries; non-included activities flagged as out of scope
- Structured handover with comprehensive knowledge transfer at engagement end

Constraints

The service does not include hands on technical build, implementation, or platform operations. There is no provision for out of hours services, assumption is business hours only
