

Architecture Advisory Services

G Cloud 15 - LOT3

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Architecture Advisory Services

Service Description

Independent advisory to define cloud vision, target architecture, and pragmatic roadmap for public sector organisations. Establish principles, reference models, and decision guardrails across multicloud. Prioritises value, risk, and dependency management. Deliver recommendations and support delivery

Features

- Strategic cloud vision aligned to organisational outcomes and constraints
- Target operating model definition spanning people, process, and technology
- Multi-cloud architecture patterns with vendor-neutral design principles established
- Governance frameworks balancing innovation velocity with risk management controls
- Dependency mapping across legacy estate and cloud transformation initiatives
- Value case development linking architecture decisions to measurable benefits
- Roadmap sequencing prioritising quick wins alongside foundational capability building
- Decision frameworks and guardrails enabling delegated architecture authority
- Reference architectures addressing security, compliance, and public sector requirements
- Delivery support bridging strategy through implementation with architectural assurance

Benefits

- Reduced risk through structured decision-making and architectural governance
- Accelerated delivery by removing blockers and clarifying dependencies early
- Cost optimisation through informed platform choices and waste elimination
- Improved agility enabling faster response to changing organisational needs
- Enhanced security posture with consistent controls across cloud platforms
- Greater innovation capability through modern patterns and proven practices
- Stakeholder confidence built on transparent roadmaps and value tracking
- Reduced vendor lock-in through multi-cloud strategy and portable designs

- Compliance assurance addressing public sector regulatory and policy requirements
- Knowledge transfer to build internal capability for sustained growth

Constraints

Advisory focused - not hands on. Implementation of strategy recommendations will require additional resource and terms.
