

Public Order & Safety Digital Operations Excellence

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Public Order & Safety Digital Operations Excellence

Service Description

Strategic consulting to modernise and optimise public order and safety operations for government and service sector leaders using advanced digital solutions.

Features

- Comprehensive assessment of current public order and safety systems
- Strategic roadmap for digital transformation and modernization
- Integration of best-in-class safety and operations applications
- Custom workflow automation for critical incident response
- Data-driven analytics for operational insight and risk mitigation
- Change management support for public sector adoption challenges
- Design and implementation of role-based access controls
- Performance monitoring and real-time operational dashboards
- Continuous compliance management for sector-specific regulations
- End-user training and long-term operational support resources

Benefits

- Enhanced citizen and stakeholder safety through modernized processes
- Faster and more coordinated critical incident response
- Improved data accuracy for better decision-making under pressure
- Increased transparency and accountability in public sector services
- Optimized deployment of resources for maximum impact
- Reduced operational risks through best-practice governance
- Seamless integration with existing public sector applications
- Elevated service quality and public trust in safety institutions
- Ongoing compliance with evolving regulations and standards
- Empowered workforce with future-ready digital skills

Constraints

Requires executive sponsorship and access to existing operational data and systems.
