

Accelerated Data Ingestion & Transformation Enablement

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Accelerated Data Ingestion & Transformation Enablement

Service Description

A service for organisations seeking to streamline, secure, and automate data ingestion and transformation workflows, empowering agile analytics and business intelligence initiatives.

Features

- Comprehensive assessment of current data pipelines and ingestion strategies
- Design and deployment of cloud-native ingestion frameworks
- Automated data extraction from diverse structured and unstructured sources
- Configurable real-time and batch data processing workflows
- Advanced data transformation and normalization solutions
- Built-in quality assurance and data validation checkpoints
- Robust metadata management and lineage tracking capabilities
- Secure data flow architecture with compliance-ready controls
- Integration of monitoring and centralized dashboarding tools
- Expert training workshops and change management support

Benefits

- Accelerates delivery of trusted data to analytics platforms
- Reduces operational overhead through automation and orchestration
- Enables real-time business insights from newly delivered data
- Improves data quality and consistency across all sources
- Enhances compliance posture with secure, auditable processes
- Scales easily to support growing or evolving data needs
- Minimizes risks associated with manual data handling
- Empowers teams with self-service and training resources
- Shortens time-to-value for business intelligence initiatives
- Futureproofs data operations against changing technologies

Constraints

Requires client access to data sources, APIs, and key stakeholders for integration.
