1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Service Offering

Service Description

Insight's AWS Foundation Setup Service supports organisations with designing and deploying a Landing Zone in the AWS, based on AWS Well-Architected Framework. It is a standardised, repeatable and flexible service that provides a customised AWS Landing Zone onto which clients can then deploy workloads, applications & AWS services.

Service Overview

The starting point for a successful Cloud journey is a robust and secure bedrock on which to evolve your future environment, boost operational excellence, and drive and underpin future growth. Insight AWS Foundation Setup delivers precisely that bedrock.

Part of the suite of AWS Services, the Insight AWS Foundation Setup creates a specially provisioned and prepared cloud landing zone tailored to your needs. Our proven automated tools, controls and know-how give you the secure solid base from which to build the right solution.

Service Summary

Closely aligned to AWS's Well-Architected Review principles and Insight's Reference architecture, the Insight AWS Foundation Setup is a leading flexible solution that enables businesses of all sizes to adopt the cloud by setting a solid foundation. The service also offers the possibility to extend the existing on-premises infrastructure to the AWS cloud and leverage the scalability, flexibility, availability and global reach of the AWS cloud platform.

Our AWS Foundation Setup service helps clients achieve benefits including better RoI, resilience and mobility while accelerating their journey to AWS. The industry security standards applied as part of the AWS Foundation Setup service design ensure that our clients' data remains secure and protected against ransomware and other threats. The service also includes designing and implementing the AWS Cloud platform, which is provisioned, integrated, and ready for clients to start deploying their workloads immediately.
