

Real-Time Data Acceleration Consulting for Enterprise Applications

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Real-Time Data Acceleration Consulting for Enterprise Applications

Service Description

Expert advisory and implementation for organizations seeking high-speed, in-memory data management to power next-generation digital applications and analytics.

Features

- Comprehensive assessment of current data architecture and business requirements
- Strategic roadmap tailored for in-memory data adoption
- Design of scalable, low-latency shared data solutions
- Integration with existing database management systems
- Performance optimization for mission-critical applications
- End-to-end security and compliance planning
- High availability and disaster recovery architecture
- Proof-of-concept and pilot deployments
- Training and knowledge transfer to IT teams
- Ongoing support and optimization for production environments

Benefits

- Dramatically improved application response times
- Enhanced ability to handle large, concurrent user workloads
- Supports real-time analytics and smarter business decisions
- Reduces bottlenecks in digital transformation initiatives
- Minimizes downtime with robust failover strategies
- Accelerates time-to-market for new digital services
- Flexible integration with both cloud and on-premises systems
- Strengthens data governance and compliance posture
- Empowers IT teams with specialized skills and knowledge
- Maximizes ROI from data infrastructure investments

Constraints

Requires modern IT infrastructure and committed executive sponsorship for success.
