

Data & AI Security Assessment

G Cloud 15 - LOT3

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Data & AI Security Assessment

Service Description

Insight's Data & AI Security Assessment helps organizations gain full data visibility, govern AI usage, and mitigate risks like Shadow AI. Powered by Microsoft Purview, it addresses compliance challenges, insider threats, and oversharing risks, enabling secure, ethical AI adoption and strengthening trust across regulatory and business environments.

Features

- Comprehensive visibility into data and its usage
- Proactive detection of Shadow AI and insider risks
- Robust governance framework for compliance assurance
- Data discovery and oversharing risk assessment
- AI risk evaluation and Shadow AI governance
- Insider risk management and tailored policy development
- Powered by Microsoft Purview for advanced security
- Identification and categorization of sensitive data
- Controls to reduce unnecessary data access
- Support for secure AI adoption strategies

Benefits

- Achieve complete visibility into your data landscape
- Prepares organisations for scaling AI experimentation, development, productionisation and adoption.
- Confidently control AI usage and reduce Shadow AI risks
- Align AI initiatives with compliance and security goals
- Minimize risk of data oversharing and leakage
- Prevent internal threats and accidental data loss
- Build trust with customers, partners, and regulators
- Demonstrate commitment to ethical AI and data protection

- Gain confidence to innovate securely with AI
- Strengthen resilience against evolving compliance challenges

Constraints

Support and delivery are provided remotely, not on-site.
