

Accelerated Model-Driven Application Platform Enablement

G Cloud 15 - LOT1A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Accelerated Model-Driven Application Platform Enablement

Service Description

Expert consulting for enterprises to architect, deploy, and optimise model-driven PaaS platforms, enabling rapid, low-code digital transformation for scalable, secure enterprise applications.

Features

- Assessment of existing application landscape and digital goals
- Architecture design for scalable model-driven application platforms
- Platform selection and integration with existing IT systems
- Implementation of low-code/no-code app development environments
- Automation of workflows and process orchestration
- Incorporation of data integration and management solutions
- Role-based access control and enhanced security configuration
- DevOps integration for continuous deployment and testing
- Comprehensive user training and enablement programmes
- Performance monitoring, optimisation, and ongoing support

Benefits

- Accelerates application development using low-code approaches
- Reduces total cost of ownership for enterprise app platforms
- Empowers business users through citizen development capabilities
- Enhances agility in responding to market and business changes
- Improves security and governance across application lifecycle
- Streamlines integration with core business data and systems
- Increases operational efficiency via workflow automation
- Facilitates rapid innovation for new digital services
- Ensures scalability to support business growth
- Provides expert guidance for sustainable platform adoption

Constraints

Requires existing cloud or on-premises infrastructure and stakeholder engagement.
