

Enterprise API Ecosystem Enablement

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Enterprise API Ecosystem Enablement

Service Description

Accelerate digital transformation for large organizations by designing, deploying, and managing robust API integration platforms—enabling seamless system connectivity, secure data exchange, and rapid innovation.

Features

- API strategy design tailored to business and technology objectives
- Comprehensive integration of legacy and modern applications
- Enterprise-grade API gateway deployment and configuration
- End-to-end API lifecycle management and governance frameworks
- Automated security, threat protection, and compliance enforcement
- Developer portal creation with self-service onboarding tools
- Real-time analytics and performance monitoring dashboards
- Automated scalability and traffic orchestration capabilities
- Ongoing API catalogue curation and version management
- Dedicated expert support for continuous ecosystem optimization

Benefits

- Accelerates time-to-market for new digital products and services
- Reduces integration complexity across disparate systems
- Unlocks new revenue streams through secure API monetization
- Enhances business agility with reusable integration assets
- Improves developer productivity and collaboration enterprise-wide
- Strengthens security posture and regulatory compliance
- Enables seamless partner, customer, and third-party connectivity
- Delivers actionable insights on API usage and value realization
- Future-proofs architecture for emerging technology adoption
- Ensures ongoing platform reliability with expert-led management

Constraints

Requires existing cloud or hybrid infrastructure; client stakeholders must align on integration priorities.
