

Smart Data Integration Accelerator

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Smart Data Integration Accelerator

Service Description

The Smart Data Integration Accelerator helps you to unify, enrich, and secure data access for organisations seeking reliable, intelligent integration across hybrid environments.

Features

- Comprehensive assessment of existing data landscapes and integration requirements
- Design of scalable data access architectures for hybrid and multi-cloud environments
- Development of automated data ingestion, transformation, and enrichment workflows
- Implementation of advanced data integration tools and middleware
- Real-time and batch data synchronization across diverse sources and destinations
- Custom API and connector development to bridge legacy and modern systems
- Integrated data security, compliance, and governance frameworks
- Intelligent data quality monitoring with self-healing automation
- Ongoing integration health diagnostics and performance optimization
- Training and enablement sessions for client teams on best practices

Benefits

- Accelerates time-to-value for analytics and business intelligence initiatives
- Reduces risk by standardizing and securing data flows organization-wide
- Improves decision-making with always-available, high-quality integrated data
- Delivers seamless connectivity between cloud, on-prem, and third-party sources
- Scales with business growth and evolving data complexity
- Enhances compliance with robust governance and auditability
- Automates integration processes, reducing operational overhead
- Empowers IT and business teams with modern data integration skillsets
- Boosts agility for rolling out new services and digital products
- Lays the foundation for future AI and advanced analytics capabilities

Constraints

Requires stakeholder commitment, legacy system access, and minimum infrastructure readiness.
