1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

Service Name

Privilege - Identity and Access Management

Service Description

uncontrolled privileged access creates security gaps and compliance risks. Microsoft 365 PIM mitigates these by enforcing just-in-time access, approval workflows, and detailed auditing—resolving overexposed admin rights, reducing insider threats, and ensuring critical roles are tightly governed, delivering secure privilege management without slowing operations

Features

- Just-in-time privileged access to reduce exposure and security risks.
- Approval workflows for granting elevated roles and permissions securely.
- Time-bound access assignments for critical administrative roles.
- Detailed audit logs for privileged role activation and usage.
- Multi-factor authentication enforced for all privileged role activations.
- Automated alerts for suspicious or high-risk privileged activities.
- Role eligibility management to control who can request elevation.
- Access reviews for privileged accounts to maintain least privilege.
- Integration with Conditional Access for enhanced security controls.
- Comprehensive reporting for compliance and governance of privileged access.

Benefits

- Reduces risk by limiting exposure of privileged accounts.
- Prevents misuse through time-bound and just-in-time access.
- Improves compliance with detailed audit logs and reporting.
- Strengthens security using multi-factor authentication for role activation.
- Enhances governance with approval workflows for elevated permissions.
- Minimizes insider threats by controlling privileged role eligibility.
- Supports least-privilege principles via regular access reviews.
- Detects anomalies with alerts for suspicious privileged activities.

- Integrates with Conditional Access for layered security enforcement.
- Simplifies audits through centralized privileged access management.
