

# **Enterprise Data Replication & Resilience Advisory**

**G Cloud 15 - LOT2A**

# 1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

## 2. Insight for the Public Sector

### Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

### Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

## **Our Approach: Consulting, Lifecycle, & Managed Services**

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

## 3. Services

### Service Name

Enterprise Data Replication & Resilience Advisory

### Service Description

A comprehensive consulting service designed for enterprises seeking robust management and optimisation of data replication software to enhance storage resilience and business continuity.

### Features

- Assessment of current storage replication architectures and processes
- Strategic roadmap for replication software implementation and optimisation
- Vendor-neutral evaluation of leading replication management tools
- Customization of replication policies for RPO/RTO alignment
- Integration planning with hybrid and multi-cloud storage infrastructures
- Automated monitoring and alerting setup for replication processes
- Disaster recovery and failover procedure design and validation
- Performance tuning for replication throughput and minimised latency
- Training and enablement for IT operations teams
- Ongoing compliance, risk, and governance advisory for data protection

### Benefits

- Significantly improves data availability and operational uptime
- Reduces risk of data loss through tailored replication strategies
- Ensures regulatory compliance for data protection and recoverability
- Accelerates disaster recovery readiness and response time
- Enables seamless integration with new and legacy storage platforms
- Optimises storage costs through intelligent replication policies
- Enhances IT staff competencies with hands-on best practice guidance
- Supports business growth with scalable, future-ready architectures
- Delivers actionable insights through proactive reporting and analytics
- Empowers decision-makers with clear governance and risk mitigation frameworks

## Constraints

Requires access to existing storage environment details and client stakeholder engagement.
