

Intelligent IoT Endpoint Management & Security Suite

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Intelligent IoT Endpoint Management & Security Suite

Service Description

Comprehensive management and security for diverse enterprise IoT endpoints, designed for IT leaders seeking robust oversight, automation, and compliance across complex device estates.

Features

- Centralized monitoring for all connected IoT endpoints across your ecosystem
- Automated device onboarding, configuration, and decommissioning workflows
- Real-time health diagnostics and proactive performance alerting
- Policy-driven security enforcement and dynamic compliance checks
- Remote patch management and secure firmware updates
- Integration with ITSM/ITAM and leading workflow automation tools
- Granular role-based access control for device management operations
- Scalable inventory and asset lifecycle tracking with granular reporting
- Threat detection, response, and endpoint anomaly analysis
- Customizable dashboards for actionable insights and executive visibility

Benefits

- Reduces administrative burden through automation and workflow integration
- Enhances IoT security posture and mitigates endpoint vulnerabilities
- Accelerates device lifecycle management, from onboarding to retirement
- Delivers compliance transparency for audits and regulatory needs
- Minimizes risk of downtime with real-time monitoring and proactive alerts
- Improves user experience via seamless device delivery and support
- Streamlines asset tracking for cost control and operational efficiency
- Empowers IT with data-driven decisions for endpoint optimization
- Enables rapid response to evolving cyber threats and anomalies
- Supports business growth with scalable, future-ready IoT management

Constraints

Requires enterprise network connectivity, supported IoT devices, and integration into approved ITSM systems.
