

Secure Remote Desktop Experience Enablement

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Secure Remote Desktop Experience Enablement

Service Description

Comprehensive consulting and implementation for enterprises seeking secure, seamless, and scalable remote desktop solutions for their hybrid or remote workforce.

Features

- End-to-end remote desktop platform design and deployment
- Seamless integration with existing physical and virtual infrastructure
- Strong multi-factor authentication and user access controls
- Proactive monitoring and performance optimisation services
- Customisable desktop image management and application delivery
- Robust data encryption and secure session management
- User training and adoption support for smooth rollouts
- Continuous support and lifecycle management services
- Scalable architecture to support dynamic workforce needs
- Compliance alignment with industry and regional regulations

Benefits

- Enable secure workplace flexibility for distributed teams
- Optimise IT resources with centralised desktop management
- Reduce endpoint security risks and data leakage threats
- Accelerate onboarding for hybrid, remote, or third-party users
- Ensure business continuity during disruptions or office closures
- Enhance employee productivity through responsive user experience
- Minimise downtime with proactive support and reliable performance
- Reduce operational costs linked to endpoint hardware provisioning
- Maintain compliance with data privacy and security standards
- Support agile business models and future transformation needs

Constraints

Requires compatible network infrastructure and licensing; internet connectivity is essential for remote access.
