

Corporate Tax Application Modernisation

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Corporate Tax Application Modernisation

Service Description

Streamline corporate tax operations with modern, intuitive financial applications for large enterprises seeking compliance, scalability, and performance gains.

Features

- End-to-end assessment of current tax management workflows
- Strategy for integrating tax systems with core financial platforms
- Application migration and upgrade planning
- Deployment of market-leading corporate tax software
- Customisation aligned to regional and international compliance
- Robust security and data privacy controls implementation
- Automated reporting and audit trail configuration
- User training and adoption workshops
- Ongoing system support and optimisation
- Change management to ensure smooth transition

Benefits

- Reduces financial risk through improved compliance automation
- Accelerates tax reporting and filing processes
- Enhances accuracy with real-time data integrations
- Scales to support business growth and acquisitions
- Improves efficiency by eliminating manual workflows
- Strengthens data security in sensitive financial operations
- Facilitates smoother audits with transparent records
- Boosts employee productivity through intuitive interfaces
- Ensures ongoing regulatory alignment with global standards
- Delivers measurable ROI through cost and time savings

Constraints

Requires access to current financial systems and tax data; enterprise IT involvement needed.
