

Resilient Data Fabric Replication Advisory

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Resilient Data Fabric Replication Advisory

Service Description

Expert consulting for enterprises seeking robust, fabric-based data replication and protection. Ideal for IT leaders demanding high availability, rapid recovery, and regulatory-grade data continuity across complex storage architectures.

Features

- Assessment of current storage and data replication landscape
- Custom design of fabric-integrated replication architectures
- Vendor and technology selection guidance for replication appliances
- Best-practice implementation roadmap tailored to business needs
- Business continuity and disaster recovery (BCDR) strategy alignment
- Integration planning with enterprise storage and SAN environments
- Operational runbook development for replication management
- Performance tuning for low-latency, high-throughput replication
- Compliance mapping for regulatory and industry data protection standards
- Knowledge transfer and upskilling for client IT teams

Benefits

- Minimises business disruption with rapid data recovery strategies
- Reduces risk of data loss across mission critical workloads
- Enhances IT resilience with robust fault-tolerant architectures
- Optimises storage investments by leveraging leading technologies
- Accelerates time to compliance with regulatory requirements
- Improves operational efficiency with documented processes
- Supports scalability for future data and workload growth
- Ensures vendor-neutral, unbiased technology recommendations
- Empowers IT teams through targeted knowledge transfer
- Delivers measurable improvement in disaster readiness

Constraints

Requires enterprise-grade storage/SAN and compatible fabric infrastructure. Excludes direct hardware supply or ongoing managed services.
