

Intelligent Document Transformation Suite

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Intelligent Document Transformation Suite

Service Description

Accelerate business efficiency with AI-powered document analysis, automation, and extraction for organisations seeking to modernise content processes.

Features

- Automated extraction of structured and unstructured data from documents
- Real-time document classification and intelligent routing
- AI-driven optical character recognition (OCR) for multiple languages
- Template-less data capture for diverse document types
- Integration with existing workflows and enterprise applications
- Natural language processing for contextual data understanding
- Configurable validation and exception handling processes
- Secure processing with audit trails and compliance features
- Continuous self-learning to enhance accuracy over time
- User-friendly dashboards for monitoring and analytics

Benefits

- Significantly reduces manual data entry and document handling costs
- Accelerates processing times for high-volume document workloads
- Improves accuracy in data extraction and business insights
- Enhances compliance through secure, auditable document management
- Adapts to evolving document types without costly retraining
- Boosts employee productivity by automating repetitive tasks
- Enables seamless integration with enterprise systems and workflows
- Strengthens decision-making with timely access to critical information
- Supports multilingual processing for global operations
- Facilitates scalable solutions for growing business demands

Constraints

Requires digital document access, defined workflows, and integration with client IT systems.
