

Metadata Intelligence Enablement

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Metadata Intelligence Enablement

Service Description

A consulting service for organisations seeking to modernise, unify and govern metadata across complex data estates for greater business agility.

Features

- Comprehensive metadata discovery across structured and unstructured data sources
- Automated metadata harvesting and continuous cataloguing processes
- Custom metadata taxonomy and lineage mapping tailored to business needs
- Integration of metadata management with data governance frameworks
- Implementation of advanced search and knowledge discovery functionalities
- Role-based access control and security for sensitive business metadata
- Configuration of metadata quality scoring and anomaly detection mechanisms
- Seamless integration with existing data integration and intelligence platforms
- Professional change management support for adoption and training
- Performance monitoring and optimisation of metadata repositories

Benefits

- Boosts data discovery and accessibility across the organisation
- Enhances regulatory compliance with auditable data lineage
- Enables faster, trusted decision-making by improving data context
- Reduces business risk through improved metadata security controls
- Accelerates digital transformation by harmonising data assets
- Drives analytics ROI through effective data quality management
- Supports scalability for growing data volumes and new sources
- Increases operational efficiency by automating metadata processes
- Empowers data stewards and business users with intuitive tools
- Strengthens foundations for AI, analytics, and data integration initiatives

Constraints

Requires client engagement for system discovery and existing data source access.
