

G-Cloud 15 Service Description

Low Code Evaluation and Discovery

Low Code Evaluation and Discovery

Method's approach to platform evaluation and solution planning uses our technical, commercial and market knowledge to enable organisations to select the right platform options that align business and technology need. Leveraging our experience in delivery, we can help you design and plan a path to realising benefits quickly.

What is the Service

Methods' Low Code Evaluation and Discovery service ensures and ensure projects have the foundations for success. We critically evaluate the suitability of the organisation need with the technology platform based on in depth public sector experience. The assessment also identifies opportunities for improving customer experience and enabling benefits from more efficient and effective working.

This can be applied to develop new projects deliver to time and budget with the expected benefits or accelerate projects currently in train. Working with the client collaboratively Methods will help, plan and prioritise processes, document current process, design new processes, develop forms, applications and workflow on a suitable low code platform.

What can it do for you

Accelerate the definition of your low code solution with solid foundations, more certainty or refine and fix an in-flight project to deliver to time and cost. Use specialist knowledge from Methods to deliver better processes faster. Balancing strategy, architecture and vision with flexibility and speed.

Service Features

1. Access to deep technical expertise through our delivery ecosystem
2. Works across platforms, from Microsoft stack to Proprietary low code
3. User research, interviews and collaborative workshops
4. Identification of pain points, opportunities and high-level benefits
5. Considerations of suitable delivery model and high level requirements
6. Expertise in aligning technology with business change
7. Options analysis is evidence and benefits-led
8. High-level benefits identification
9. High-level delivery roadmap
10. Better knowledge transfer through proven tools and processes

Service Benefits

1. Aligns business and technology requirements
2. Comprehensive, pragmatic understanding of cloud, solution and platform-based principles
3. Independent, objective advice, vendor neutral with no commercial ties
4. Focus on alignment with business requirements and value for money
5. Ability to mobilise quickly with wide understanding of technology markets
6. Access to deep technical and commercial expertise and skills
7. Apply learning from public and private sector
8. Certainty over delivery timescales and costs; minimise time to benefits
9. Better understanding of factors affecting delivery times
10. High-level roadmap built with Methods' delivery expertise

Contact details

End-to-end transformation and innovation experts

Applying our skills in innovation and collaboration from across the Methods Group, to deliver end-to-end business and technical solutions that are people-centred, safe, and designed for the future.

Methods provide collaborative and innovative solutions to help Central Government adapt to the changing landscape and deliver better outcomes for citizens.

With a focus on driving interoperability and innovation in UK Central Government, we have helped multiple organisations in the sector modernise their IT architecture, systems, strategy, and operating models to improve organisational resilience and service delivery.

Methods deliver wide-ranging services and thought leadership to support delivery including:

Onboarding and offboarding process

Ordering and Invoicing

Once we have agreed a Statement of Work(s) we will sign the appropriate agreement and complete a Call Off contract with an attached Statement of Work(s), and submission of a Purchase Order. We will then set up a mutually acceptable start date and commence work.

Payment terms are 30 days or less as may be agreed.

Please note - we are unable to accept Government Procurement Card (GPC) payments.

Customer Responsibilities

For any given requirement, we will identify any dependencies on the customer (e.g. access to key stakeholders, facilities, documentation, etc.) and agree these at the start of the work.

Making a difference

The work we do each day is focused on delivering a positive difference for the public sector for the benefit of society as a whole.

Customer stories

Cloud Hosting & Service Modernisation
Modernised digital services using secure cloud hosting, streamlined legacy workflows, and improved data insights. Delivered faster decisions, reduced manual effort, and a more transparent, **user-friendly experience** for internal teams and external users.

Cloud-Based ITSM Consolidation
Unified multiple service desks onto a cloud-based ITSM platform, standardising processes and automating workflows. Improved incident, change, and problem management, **boosting overall service reliability, efficiency, and organisational visibility.**

Large-Scale Cloud Migration (100+ Apps / 120TB)
Delivered cloud migration of **100+ legacy applications** and **120TB of data** with **100% availability**. Strengthened compliance, improved transparency, and significantly enhanced operational resilience across critical digital services.

Azure Migration & Modern Workplace Enablement
Migrated data centres to Azure and deployed modern workplace cloud services, delivering secure, scalable infrastructure. Achieved improved user experience, strengthened security posture, and **£1m savings** - all with zero service disruption.

Cloud ITSM Migration (ServiceNow SaaS)
Successfully migrated from a legacy ITSM tool to a modern, cloud-based ServiceNow platform. Delivered scalable, robust service operations, strengthened governance, and enabled faster, more consistent digital service delivery across the organisation.

Cloud-Native Data Pipelines (Azure Integration)
Built automated Azure Data Factory pipelines into a Lakehouse architecture, using Bronze/Silver/Gold layers and Delta with CI/CD. Delivered secure daily refreshes, improved data quality, lower manual effort, and more efficient reporting.
