

G-Cloud 15 Service Description

P3M Maturity

P3M Maturity

The P3M Maturity service reviews your current project, programme or portfolio management against our best practice framework, providing bespoke recommendations for improvement. This is provided as a collaborative service, with the objective of working together to deliver strong internal P3M practice.

What is the Service

Our P3M Maturity service provides a framework to assess and benchmark your current Portfolio, Programme or Project Management performance, providing a plan for improvement. Working with your P3M professionals, we will identify and prioritise deficiencies and gaps, delivering process improvements that meet your organisation’s needs.

Our approach balances proven methodology with an understanding of what is right for your organisation’s environment, applying approaches tailored to the scale and scope of the work. Through working collaboratively with stakeholders, our skilled and experienced professionals are able to transfer knowledge and skills to build sustainable capabilities in your team.

What can it do for you

- Our P3M Maturity Assessment service:
- Provides expert specialist resources to perform a maturity assessment using tried and tested best practice, including the P3M3® Maturity Model, determining your organisation’s current state, strengths and weaknesses
 - Evaluates and prioritises changes so you know which will deliver the most value
 - Ensures success in the delivery of large scale and complex transformation, infrastructure and business change programmes
 - Establishes a well-structured maturity model assessment that works alongside your current approaches to provide suggestion of improvements
 - Provides a framework for your organisation to assess and benchmark current performance
 - Provides tried and tested best practice for stress testing dependency, change, risk/issue and management
 - Increases stakeholder and leadership investment in P3M through direct engagement in the maturity assessment process
 - Delivers Maturity Assessment of P3M delivery of projects at pace, maintaining a focus on benefits realisation
 - Performs an evaluation of the P3M environment, aligning with industry and best practice standard and techniques
 - Conducts a comprehensive assessment of existing PMO capability to focus on assessment on governance processes, methodologies capabilities, planning and execution.

Contact details

End-to-end transformation and innovation experts

Applying our skills in innovation and collaboration from across the Methods Group, to deliver end-to-end business and technical solutions that are people-centred, safe, and designed for the future.

Methods provide collaborative and innovative solutions to help Central Government adapt to the changing landscape and deliver better outcomes for citizens.

With a focus on driving interoperability and innovation in UK Central Government, we have helped multiple organisations in the sector modernise their IT architecture, systems, strategy, and operating models to improve organisational resilience and service delivery.

Methods deliver wide-ranging services and thought leadership to support delivery including:

Onboarding and offboarding process

Ordering and Invoicing

Once we have agreed a Statement of Work(s) we will sign the appropriate agreement and complete a Call Off contract with an attached Statement of Work(s), and submission of a Purchase Order. We will then set up a mutually acceptable start date and commence work.

Payment terms are 30 days or less as may be agreed.

Please note - we are unable to accept Government Procurement Card (GPC) payments.

Customer Responsibilities

For any given requirement, we will identify any dependencies on the customer (e.g. access to key stakeholders, facilities, documentation, etc.) and agree these at the start of the work.

Making a difference

The work we do each day is focused on delivering a positive difference for the public sector for the benefit of society as a whole.

Customer stories

Cloud Hosting & Service Modernisation
Modernised digital services using secure cloud hosting, streamlined legacy workflows, and improved data insights. Delivered faster decisions, reduced manual effort, and a more transparent, **user-friendly experience** for internal teams and external users.

Cloud-Based ITSM Consolidation
Unified multiple service desks onto a cloud-based ITSM platform, standardising processes and automating workflows. Improved incident, change, and problem management, **boosting overall service reliability, efficiency, and organisational visibility.**

Large-Scale Cloud Migration (100+ Apps / 120TB)
Delivered cloud migration of **100+ legacy applications** and **120TB of data** with **100% availability.** Strengthened compliance, improved transparency, and significantly enhanced operational resilience across critical digital services.

Azure Migration & Modern Workplace Enablement
Migrated data centres to Azure and deployed modern workplace cloud services, delivering secure, scalable infrastructure. Achieved improved user experience, strengthened security posture, and **£1m savings** - all with zero service disruption.

Cloud ITSM Migration (ServiceNow SaaS)
Successfully migrated from a legacy ITSM tool to a modern, cloud-based ServiceNow platform. Delivered scalable, robust service operations, strengthened governance, and enabled faster, more consistent digital service delivery across the organisation.

Cloud-Native Data Pipelines (Azure Integration)
Built automated Azure Data Factory pipelines into a Lakehouse architecture, using Bronze/Silver/Gold layers and Delta with CI/CD. Delivered secure daily refreshes, improved data quality, lower manual effort, and more efficient reporting.
