All Hands on Deck

We will sit down with key stakeholders to forge a shared vision through workshops on AI and Google Cloud, deep diving your business to look for use cases within your teams.

Charting the Path Forward

We then review the results from phase one and analyse the your current positioning according to the Google Cloud AI adoption framework, before providing you with a detailed roadmap for your future AI engagement.

Testing the Waters

Finally, we translate our findings into real-life use cases, building up to three prototypes to show first-hand the business benefit and return on investment of AI adoption within your organisation.

WHAT YOU GET

- **An AI Entry Point:** Start your AI journey with confidence, supported by a partner with proven experience.
- **Uncover Use Cases:** We pinpoint where AI will deliver the most significant benefits and highest value for your business.
- **Know Your Readiness:** We assess your current AI readiness to determine the best starting point for successful adoption.
- **Map Your Route:** A tailored AI roadmap, complete with up to three relevant prototypes, giving you the confidence to execute a winning AI strategy.
