

Compliance Readiness Assessment

Empower your business with expert compliance assessments and actionable insights for better outcomes

Cyber Security

What is our Compliance Readiness Assessment?

A Compliance Readiness Assessment evaluates how well your organisation meets key standards such as ISO27001, NIS2, DORA and Cyber Essentials.

We review your policies, procedures, and controls across information security, data protection, and business resilience. We highlight any gaps and provide a clear roadmap to full compliance.

By conducting a compliance readiness assessment, you can proactively address non-compliances, avoid penalties, and protect trust with customers and stakeholders.

Benefits

Our offering focuses on addressing key security needs with:

Pre-audit Preparation

Ensure you have all the necessary information to achieve compliance before an audit.

Compliance Confidence

Gain assurance that you are meeting industry regulations and best practices, even for regulations without a mandated audit schedule.

Risk Reduction

Achieve a recognised certification, providing confidence that your security risks are being effectively managed.

Operational Resilience

Align with established frameworks enhancing your organisation's resilience to cyber-attacks and incidents.

Deliverables

A Compliance Readiness Assessment offers several key benefits:

Actionable Recommendations:

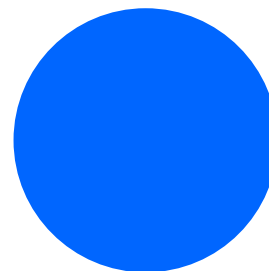

- › Clearly understand the steps needed to achieve compliance.

Compliance Confidence:

- › Gain assurance that you are meeting industry regulations and best practices.

Optimised Investments:

- › Make informed decisions about security spending based on actual needs.

Why Telefónica Tech?

Achieving compliance is critical but doing it efficiently, with maximum business impact, is where Telefónica Tech excels. Our Compliance Readiness Assessment delivers more than just a checklist; we provide actionable insights, board-level reporting and a practical, costed roadmap to full compliance.

With over 2,000 cyber security experts and 1,700+ customers worldwide, we combine global reach with proven expertise across ISO27001, DORA, NIS2, and Cyber Essentials. Our complimentary threat assessments help you identify risks early - empowering smarter investment decisions and stronger security outcomes.

Additional Services to Elevate Your Business

NextDefense

NextDefense helps you identify and mitigate security risks, providing the intelligence needed to act quickly and build organisational resilience. Aligned to Zero Trust principles and the NIST Cyber Security Framework, it covers every stage of the attack lifecycle.

With global expertise and local assurance, we combine AI-driven insights and end-to-end cyber defence under one trusted brand, giving you the confidence to make smarter, faster security decisions.
