

Cyber Essentials

Accelerating your certification journey – while we take care of the hard work.

Cyber Security

What is Cyber Essentials?

Cyber Essentials and Cyber Essentials Plus are increasingly valuable certifications – not just for protecting against common threats, but also as essential credentials for winning new business. Achieving certification for the first time can seem complex and time-consuming, but it doesn't have to be.

Our service is designed to make the process as smooth and straightforward as possible. We manage the entire journey end-to-end, guiding you through each step – from completing the self-assessment questionnaire and conducting technical scans to managing remediation and final certification. With our support, you'll meet the requirements quickly and with minimal effort on your part.

We take a pragmatic, outcome-focused approach that helps you avoid common pitfalls and delays. This means a faster, simpler path to certification.

Benefits

We oversee the entire process.

You get to certification faster.

We keep your effort to a minimum.

Deliverables

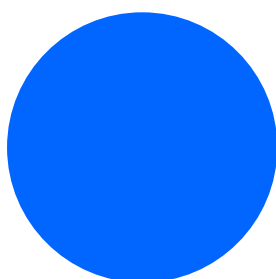

- › Completed Cyber Essentials self-assessment questionnaire.
- › Technical vulnerability scanning for Cyber Essentials Plus.
- › Remediation guidance, with optional project management support.
- › End-to-end management of the certification audit process.

Why Telefónica Tech?

At Telefónica Tech, we turn Cyber Essentials into a strategic enabler for your business. Our streamlined service is designed to make certification fast, straightforward and stress-free – helping you unlock the commercial and security benefits that come with being certified.

We guide you through every step with expert support, ensuring you meet the requirements confidently and efficiently. Whether you're pursuing Cyber Essentials or Cyber Essentials Plus, our approach simplifies the journey while strengthening your organisation's cyber resilience.

With over 2,000 cyber security experts and more than 1,700 customers worldwide, we bring global experience and a practical understanding of real-world challenges.

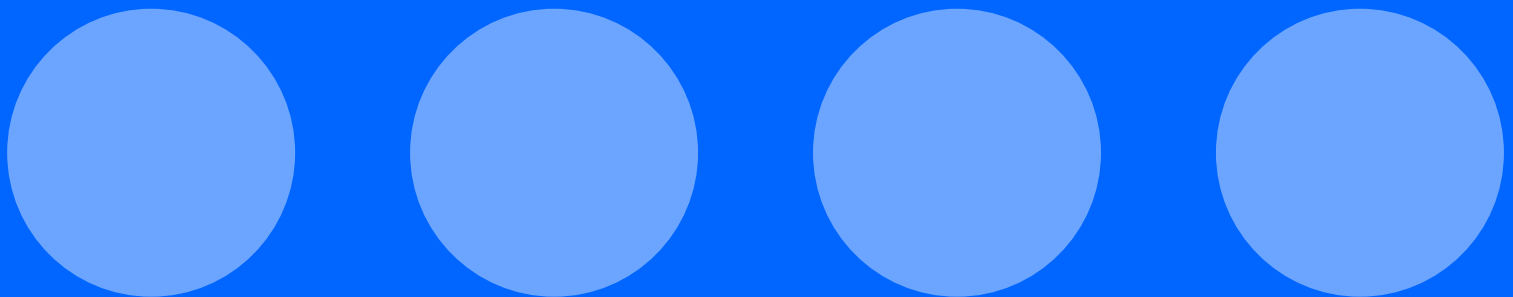

Additional Services to Elevate Your Business

NextDefense helps you identify and mitigate security risks, providing the intelligence needed to act quickly and build organisational resilience. Aligned to Zero Trust principles and the NIST Cyber Security Framework, it covers every stage of the attack lifecycle.

With global expertise and local assurance, we combine AI-driven insights and end-to-end cyber defence under one trusted brand – giving you the confidence to make smarter, faster security decisions.
