

Secure Microsoft 365

Secure Microsoft 365 by Telefónica Tech offers a comprehensive suite of high-level security services to protect your digital assets and ensure business continuity.

Cyber Security

What is Secure Microsoft 365?

Secure Microsoft 365 by Telefónica Tech offers a comprehensive suite of high-level security services designed to protect your organisation's digital assets and ensure business continuity. We organise our solution into four modules: Identity, Devices, Information and Threats, providing a holistic approach to security. By implementing a Zero Trust model and automating detection and response policies, we help you improve your security posture and reduce the risk of cyber threats.

Your organisation will benefit from enhanced security through identity protection, device management, information security and advanced threat detection and response capabilities. Our service includes consultancy, implementation and management, allowing you to streamline your security operations and achieve cost predictability and ROI measurement. Additionally, Secure Microsoft 365 enhances your employee experience and well-being by providing secure access to digital tools and services, regardless of location.

Benefits

Enhanced Security: Secure Microsoft 365 provides comprehensive protection for identities, devices, information and threats, ensuring robust security across your organisation.

Operational Excellence: Streamline your security operations with consultancy, implementation and management services, achieving cost predictability and ROI measurement.

Value Creation: Implement a Zero Trust model and automate detection and response policies to improve your security posture and reduce the risk of cyber threats.

Employee Experience: Enhance employee well-being by providing secure access to digital tools and services, regardless of location.

Deliverables

- › **Security Assessment:** Comprehensive evaluation of the company's security across four modules: Identity, Devices, Information and Threats.
- › **Zero Trust Model:** Configuration of access and identities in accordance with a Zero Trust model.
- › **Detection and Response Automation:** Definition and implementation of automated detection and response policies.
- › **Threat Monitoring and Reporting:** Establishment of a threat and vulnerability monitoring and reporting model.
- › **Microsoft Intune for Security:** Utilisation of Microsoft Intune for device protection and security management.

Why Telefónica Tech?

Telefónica Tech offers Secure Microsoft 365 as a comprehensive suite of high-level security services designed to protect your organisation's digital assets and ensure business continuity. Our solution is organised into four modules: Identity, Devices, Information and Threats, providing a holistic approach to security. By implementing a Zero Trust model and automating detection and response policies, we help you improve your security posture and reduce the risk of cyber threats.

Telefónica Tech stands out due to our expertise in security and Microsoft technologies, offering a modular service that allows you to evolve and continuously improve your security posture. Our certified and updated equipment ensures predictable and controllable costs, while our relationship-based trust model provides peace of mind through continuous monitoring and support. With Telefónica Tech, you can achieve operational efficiency and enhance employee experience and well-being by providing secure access to digital tools and services, regardless of location.

Additional Services to Elevate Your Business

- › **Microsoft 365 Backup as a Service (M365 BaaS):** This fully managed backup and recovery solution protects critical Microsoft 365 data, including Exchange Online, SharePoint, OneDrive for Business and Teams. It provides daily automated backups, granular item-level restore and long-term retention, all hosted on secure, UK-based infrastructure. This service removes the need for customers to manage backup infrastructure while giving them direct restore capabilities through a self-service portal.

Leading the Way in
Digital Transformation
for our Customers
