

MICROSOFT DYNAMICS 365 FINANCE AND SUPPLY CHAIN MANAGEMENT SUPPORT AND SERVICES

G-CLOUD 15

SERVICE OVERVIEW

Telefónica Tech provides a Microsoft Dynamics 365 Finance and Supply Chain Management service to support public sector organisations in managing finance, supply chain and operational processes through a secure, cloud-based ERP platform.

Microsoft Dynamics 365 Finance and Supply Chain Management is hosted on Microsoft Azure and forms part of the wider Dynamics 365 platform. The service enables organisations to modernise legacy ERP environments, improve financial control and reporting, and streamline end-to-end supply chain and operational activities.

Designed for enterprise-scale use, the service supports integration with other Dynamics 365 solutions and Microsoft services, providing a scalable and resilient platform aligned to public sector governance, security and compliance requirements.

KEY FEATURES

- Configure Dynamics365 Supply Chain Management with no code solutions.
- Upgrade Dynamics AX to Dynamics365 Finance and Supply Chain Management.
- Dynamics365 Finance and Supply Chain Management is a cloud solution.
