

Security Services

Service Overview

Our Cyber Security experts are with you from advisory and assessments to rapid response and Managed SOC and MDR services, providing protection for your most valuable assets, identifying weaknesses and threat vectors in your tech stack and delivering strategic and tactical cyber security tools and solutions.

Working with the best cyber security products and personnel available, our strategic partners and our bespoke security managed service, we will stay on top of evolving risks to your business, and our agile ways of working ensure we can implement rapid-response protocols to maintain network access control and secure your sensitive data and systems against incoming cyber threats. So you can get on with growing your organisation. Bringing together advanced malware protection, vulnerability scanning, penetration testing, Red Teaming, Risk Management, Governance and MDR, our capabilities provide holistic security coverage for your organisation at every stage of your security maturity journey.

Visibility of Vulnerabilities – Through the vulnerability scanning and penetration testing service, you gain complete visibility into the vulnerabilities within your estate, enabling effective remediation.

Improved Security Awareness – By testing your staff through our social engineering service, you gain visibility and the scrutiny to accurately assess the training requirements for your audience. This can be further augmented to provide a blended learning approach that is proven to improve overall security awareness.

Protection of your Estate – Utilising industry-leading technologies, Telefonica Tech provides full-spectrum detection services for your estate. Giving complete visibility of security incidents as they occur.

Improved Cyber Maturity – Support in achieving security accreditations or aligning to security standards, our security consultants work with you to take you from where you are now to where you want to be.

Post Breach Support – Providing hands-on experience and support in the event of a major incident, giving you the expertise and manpower to get back to business as usual as quickly as possible.
