

Meeting Room Consultancy

Service Overview

Our Information Technology Relocation Team is a highly professional, multi-disciplined team of consultants, system designers, and 'on-site' integrators and engineers who leverage their vast experience to deliver a multi-faceted, holistic approach to the design and installation of on-prem services such as audio visual systems, physical security and structured cabling. Telefónica Tech's AV consultants combine spatial, technical and operational engineering capabilities as well as acoustic and lighting design to integrate technology into your locations. Our solutions include Display Screens, Multi-Display Videowalls, MS Teams & WebEx Integrations, Control Systems, Interactive Displays, Digital & Way-finder Signage, Wireless Content Sharing, and BYOD.

Enhanced Collaboration – Tailoring the space to your team's specific needs can foster better collaboration and communication.

Increased Productivity – A well-designed meeting room can ignite creativity and maximise productivity by providing a space that is both functional and comfortable.

Technology Integration – Equipping rooms with modern presentation tools and connectivity options supports dynamic presentations and remote collaboration.

Adaptability – With modular options like movable partitions and adjustable furniture, the room can be reconfigured for various group sizes and meeting types.

Professional Atmosphere – The right design can create a good first impression on clients and team members, and encourage a focused work environment

Why partner with Telefonica Tech? – We unlock the power of integrated technology for all businesses, bringing together a unique combination of the best people, with the best tech and the best platforms, supported by a dynamic partner ecosystem and strategic agreements with all market leaders.
