

AWS Well Architected Review

Optimise, Secure, and Elevate Your Cloud with an AWS Well-Architected Review.

What is the AWS Well Architected Review?

The AWS Well Architected Review is a comprehensive service designed to help businesses optimise their use of AWS by evaluating their cloud architectures against AWS best practices. Through this review, our expert team assesses critical aspects such as operational excellence, security, reliability, performance efficiency, cost optimisation and sustainability. By identifying strengths and potential areas for improvement, we provide actionable recommendations to enhance the scalability, security, and efficiency of our clients' AWS environments. This service not only ensures that our clients' architectures are robust and aligned with industry standards but also supports their ongoing innovation and growth in the cloud.

Benefits:

**Enhanced Security Posture:**

Easily scale your cloud infrastructure to meet growing demands.

**Increased Operational Efficiency:**

Streamlined processes and improved operational practices that enhance productivity and reduce downtime.

**Optimised Performance:**

Fine-tuning of cloud resources to achieve better performance and responsiveness, tailored to specific application needs.

Cost Savings: Identification of cost-saving opportunities through efficient resource utilisation and elimination of unnecessary expenditures.

Improved Reliability: Strengthened architecture resilience, minimising the risk of failures and ensuring business continuity.

**Scalability and Flexibility:**

Recommendations for scalable solutions that can grow with the business, allowing for seamless expansion and adaptation to changing demands.

**Compliance and Governance:**

Assurance that the cloud environment meets regulatory requirements and adheres to governance best practices.

Strategic Insights: Access to expert guidance and strategic insights that align cloud infrastructure with business objectives and future growth plans.

Our Deliverables:

- › **Workload Assessment Report:** A detailed evaluation of the workload against each of the six pillars.
- › **Improvement Plan:** A prioritised list of actionable recommendations to address identified risks.
- › **Well-Architected Report:** A high-level overview of findings, risks, and business impact.
- › **Follow-Up Plan:** Schedule for re-assessment or continuous improvement.

Additional Services to Elevate Your Business

Strategic Cloud Consulting

Our strategic cloud consulting services help you design and deploy cloud solutions that align with your business goals.

Cloud Managed Services

We offer comprehensive cloud-managed services to ensure the smooth operation of your cloud infrastructure.

Cloud Networking

Our cloud networking solutions provide secure and reliable connectivity for your cloud environment.

Why Telefónica Tech?

Telefónica Tech offers a strategic approach to cloud consulting using a proven methodology called Propel, which ensures rapid time to value, scalability, and continuous optimisation. Our expertise in providing tailored cloud solutions, whether public, private, or hybrid, helps you achieve tangible results fast without compromising quality. With a comprehensive cloud portfolio and global partnerships, we deliver end-to-end services that drive digital transformation and innovation.

Leading the Way in
Digital Transformation
for our Customers

Telefónica Tech unlocks the power of integrated technology, bringing together a unique combination of the best people, with the best tech and the best platforms, supported by a dynamic partner ecosystem to make a real difference to every business, every day.
