Private Cloud AI

Empower your business with *secure, scalable* *AI* - delivered in your own private cloud for full control, compliance, and innovation.

Cloud

What is Private Cloud AI?

Telefónica Tech's Private Cloud AI (PCAI) empowers your organisation to harness the full potential of artificial intelligence within a secure, dedicated cloud environment. Built for enterprises that require complete control over their costs, data, and compliance, this solution delivers high-performance AI infrastructure on-premises – enabling rapid innovation without compromising on privacy or regulatory requirements.

With Private Cloud AI, you benefit from predictable costs, seamless scalability, and expert support throughout your AI journey. It accelerates time-to-value for AI projects, allowing you to develop, deploy, and manage advanced AI solutions confidently, while keeping your sensitive data protected and your business future-ready.

Benefits:

Data Sovereignty:

Keep sensitive data on-premises to meet regulatory and compliance requirements.

Faster Time-to-Value:

Pre-configured infrastructure and packaged expert services accelerate AI deployment.

Predictable Costs:

Customers benefit from easier implementation with pre-configured solutions that minimise deployment risks.

Enterprise-Grade Security:

Built-in controls and governance for secure AI operations.

Scalable AI Maturity:

Supports growth from pilot projects to full production workloads.

Strategic Enablement:

Includes envisioning workshops, data readiness assessments, and operating model design.

Deliverables:

- › **Pre-integrated AI Infrastructure:** Receive a fully configured HPE PCAI stack with NVIDIA Graphical Processing Unit's (GPUs), deployed in your datacentre.
- › **AI Envisioning Workshop:** Identify high-impact use cases tailored to your business through expert-led sessions.
- › **Data & AI Operating Model Definition:** Establish a clear roadmap and operating model to guide your AI journey from concept to production.
- › **Data Discovery & Readiness Assessment:** Ensure your data is structured, accessible, and primed for AI workloads.
- › **Remote Platform Management:** Benefit from optional monitoring and management support via Telefónica Tech expert engineers.

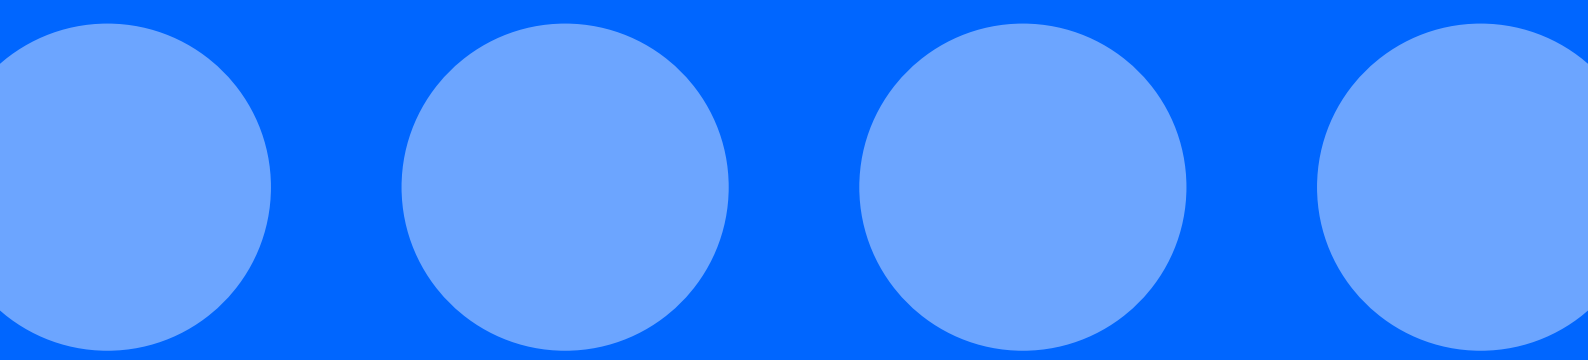

Why Telefónica Tech?

Choosing a partner for your AI journey is critical. That's why Telefónica Tech is the trusted choice for UK businesses. We provide more than just technology; we offer a complete, UK-based partnership for your AI success.

We offer a world-class Private Cloud AI platform from HPE and NVIDIA, fully managed from our UK operations centre. This combination of elite technology and local support is backed by our proven AI expertise, which is focused on delivering real-world success for our customers.

Choose Telefónica Tech for a partnership that ensures complete data sovereignty and guarantees your AI investment delivers real value.

Leading the Way in *Digital Transformation* for our Customers

Telefónica Tech unlocks the power of integrated technology, bringing together a unique combination of the best people, with the best tech and the best platforms, supported by a dynamic partner ecosystem to make a real difference to every business, every day.
