Pricing

Amazon Location Pricing

Discover Amazon Location Service's affordable pricing for maps, places, routing, tracking & geofencing. No upfront costs - pay only for what you use

Pricing

Beyond the Amazon Location Service Free Tier, you pay for the requests your application makes to the service outlined in the table below.

Volume discounts are available for customers with a monthly usage exceeding \$5,000. For more info [Contact us](#).

Price may vary based on request parameters, please refer to the [Pricing](#) section in the developer guide.

Advanced (including Opening Hours, Contacts, Access Points, Time Zone, and more)*\$1.50

Stored (storing results, including all supported fields above)\$4.00

*Please refer to [Places Pricing](#) for details on supported fields

Amazon Location Service Free Tier

You can evaluate Amazon Location Service using the free trial during your first three months of usage. During that time, you will not be billed for monthly usage to the levels defined for listed APIs in the table below. If your usage exceeds the free trial levels or includes Advanced, Premium or Stored features, you will be billed for the additional usage according to paid tier rates.

Starting July 15, 2025, new AWS customers will receive up to \$200 in AWS Free Tier credits, which can be applied towards eligible AWS services, including Amazon Location Service. At account sign-up, you can choose between a free plan and a paid plan. The free plan will be available for 6 months after account creation. If you upgrade to a paid plan, any remaining Free Tier credit balance will automatically apply to your AWS bills. All Free Tier credits must be used within 12 months of your account creation date. To learn more about the AWS Free Tier program, refer to [AWS Free Tier website](#) and [AWS Free Tier documentation](#).

CapabilitiesIncluded monthly, for 3 months

Maps

500,000 Map Tile requests (vector or raster)
