DSPM

SKU	Product Name	Tier	Term	GBP Price	Product Description
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	1 - 500	12	£578.66	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	1 - 500	24	£1,157.33	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	1 - 500	36	£1,736.00	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	100001 - 200000	12	£44.64	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	100001 - 200000	24	£89.28	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	100001 - 200000	36	£133.92	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	10001 - 20000	12	£66.13	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	10001 - 20000	24	£132.26	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	10001 - 20000	36	£198.40	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	1001 - 1500	12	£132.26	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.

PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	1001 - 1500	2 4	£264.5 3	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	1001 - 1500	3 6	£396.8 0	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	1501 - 2000	1 2	£117.3 8	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	1501 - 2000	2 4	£234.7 7	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	1501 - 2000	3 6	£352.1 6	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	200001 - 999999	1 2	£39.68	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	200001 - 999999	2 4	£79.36	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	200001 - 999999	3 6	£119.0 4	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	20001 - 50000	1 2	£57.86	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	20001 - 50000	2 4	£115.7 3	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	20001 - 50000	3 6	£173.6 0	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	2001 - 2500	1 2	£99.20	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	2001 - 2500	2 4	£198.4 0	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.

PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	2001 - 2500	3 6	£297.60	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	2501 - 5000	1 2	£85.97	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	2501 - 5000	2 4	£171.94	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	2501 - 5000	3 6	£257.92	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	50001 - 100000	1 2	£51.25	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	50001 - 100000	2 4	£102.50	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	50001 - 100000	3 6	£153.76	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	5001 - 10000	1 2	£74.40	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	5001 - 10000	2 4	£148.80	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	5001 - 10000	3 6	£223.20	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	501 - 750	1 2	£496.00	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	501 - 750	2 4	£992.00	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	501 - 750	3 6	£1,488.00	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.

PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	751 - 1000	1 2	£148.8 0	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	751 - 1000	2 4	£297.6 0	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-M-DSPM-S-A	Proofpoint Data Security Posture Management (DSPM) (Per TB) - SaaS	751 - 1000	3 6	£446.4 0	Proofpoint Data Security Posture Management (DSPM) automatically discovers, classifies, and enables prioritized remediation of security and compliance risks across supported data types, including AI/ML pipelines, within cloud and on-premises environments.
PFPT-SUP-DSPM-A	Proofpoint Data Security Posture Management (DSPM) Support	1 - 99	1 2	£0.00	Proofpoint Data Security Posture Management (DSPM) Support
PFPT-SUP-DSPM-A	Proofpoint Data Security Posture Management (DSPM) Support	1 - 99	2 4	£0.00	Proofpoint Data Security Posture Management (DSPM) Support
PFPT-SUP-DSPM-A	Proofpoint Data Security Posture Management (DSPM) Support	1 - 99	3 6	£0.00	Proofpoint Data Security Posture Management (DSPM) Support
PPAO-M-DSPMDA-S-A	Proofpoint DSPM for Auditing Seats - SaaS	1 - 99	1 2	£61,99 6.90	Proofpoint DSPM seat for data auditors.
PPAO-M-DSPMDA-S-A	Proofpoint DSPM for Auditing Seats - SaaS	1 - 99	2 4	£123,9 93.80	Proofpoint DSPM seat for data auditors.
PPAO-M-DSPMDA-S-A	Proofpoint DSPM for Auditing Seats - SaaS	1 - 99	3 6	£185,9 90.70	Proofpoint DSPM seat for data auditors.
