Cyber Risk Exposure Management Core [Total # of assessed devices]
Cyber Risk Exposure Management Essentials [Total # of assessed devices]
Cloud Risk Management [# of cloud accounts with <= 500 cloud resources]
Cloud Risk Management [# of cloud accounts with 501 - 1000 cloud resources]
Cloud Risk Management [# of cloud accounts with 1001 - 1500 cloud resources]
Cloud Risk Management [# of cloud accounts with 1501 - 2000 cloud resources]
Cloud Risk Management [# of cloud accounts with 2001 - 2500 cloud resources]
Cloud Risk Management [# of cloud accounts with 2501 - 3000 cloud resources]
Cloud Risk Management [# of cloud accounts with 3001 - 3500 cloud resources]
Cloud Risk Management [# of cloud accounts with 3501 or more cloud resources]
Agentic SIEM - Analytic Log Ingestion
Agentic SIEM - Archival Log Ingestion
Agentic SIEM - Analytic Data Retention
Agentic SIEM - Archival Data Retention
Forensics [Data stored in warehouse in 10GB increments]
Data Pipeline [Outbound telemetry data size in TB increments]
XDR for Endpoints (EDR) [Total # of endpoints including servers]
XDR for Email (EmDR) [Total # of users, mailbox if AD sync is unavailable]
XDR for Networks (NDR)- Deep Discovery Inspector [network bandwidth in Gbps]
XDR for Networks (NDR) [network bandwidth in 500Mbps increments]
XDR for Cloud (CDR) [Estimated yearly data ingestion in GB]
XDR for OT [Total # of OT devices]
XDR for OT [Total # of OT nodes (network segments)]
Sandbox Analysis - Manual Submission [# of submissions to submit per day]
Sandbox Analysis - Automatic Submission with Vision One ZTSA Internet Access [must be equal to total # of ZTSA Internet Access users]
Sandbox Analysis - Automatic Submission with Vision One for Networks [Total bandwidth enabled for sandboxes in 500Mbps increments]
Sandbox Analysis - Automatic Submission with Vision One Endpoint Security [must be equal to total # of V1 Endpoint Security devices]
Threat Intelligence Feed [input "1" if to be used]
Threat Intelligence Feed for Service Providers [input "1" if to be used]
Threat Insights [# of analyst users in Vision One account]
Container Security [# of Kubernetes nodes or Amazon ECS instances]
Container Security [# of serverless container pods or tasks]
Container Security - Custom Rule Detection [# of GB]
File Security [# of scans in 500K increments]

Endpoint Security Core [Total # of endpoints including servers]
Endpoint Security Essentials [Total # of endpoints including servers]
Endpoint Security Pro [Total # of endpoints including servers]
SAP Scanner for Trend Vision One - Endpoint Security Pro [# of SAP server/host]
Mobile Security [Total # of mobile devices]
Email and Collaboration Security Core [Total # of users]
Email and Collaboration Security Essentials [Total # of users]
Email and Collaboration Security Pro [Total # of users]
Zero Trust Secure Access - Internet + Private Access [Total # of users]
Zero Trust Secure Access - Internet Access [Total # of users]
Zero Trust Secure Access - Private Access [Total # of users]
Zero Trust Secure Access - AI Service Access [Total # of users]
Zero Trust Secure Access - Internet + AI Service Access [Total # of users]
Zero Trust Secure Access - Outbound Static IP Add-on - per 256Mbps [network throughput in 256Mbps increments]
Data Security - Endpoint [# of endpoint]
AI Application Security - Private Cloud
AI Application Security - SaaS
Service One Complete Endpoint and Server (501+)
Service One Complete Network - 500MB
Service One Complete Network 1 GB
Service One Complete Network 4GB
Service One Complete Network 10G
Managed XDR Endpoint and Server (51+)
Managed XDR 500MB
Managed XDR 1GB
Managed XDR 4GB
Managed XDR 10GB
