Overview

Omniassa Intelligence is a cloud service built for the Omniassa Workspace ONE platform that provides deep insights, analytics, and automation for the entire digital workspace. Together, these capabilities enhance digital user experience and strengthen security across the entire digital workspace environment.

Omniassa Intelligence provides:

- **Cross platform insights into the state of the digital workspace** – Get complete visibility into the security posture, user experience, device health, OS adoption and app analytics.
- **Improved employee experience and productivity** – Understand how digital workspace KPIs impact employee experience. Proactively troubleshoot and quickly provide a fix.
- **Increased IT efficiency and agility** – Make faster and better, data-driven decisions and take actions with automation and orchestration workflows.
- **Unified security strategy** – Break the siloes between IT and InfoSec with a consistent and common tool for discovering and responding to new threats, and continuous verification for risk-based security

Pricing example

SKUs provided in the pricing tables cover 12-, 24-, and 36-months term. To calculate the total price, multiply the per month price provided with the preferred term length required. For 24- and 36-months term, additional discounts will be applied to demonstrate the benefits of longer-term purchases as shown in the illustrative example below.

Please contact Omniassa sales for further information.

SKU	SKU Length	Description	Price

Pricing Considerations

Please refer to the below key points when considering buying Omnissa offerings:

- Pricing based upon a 12m prepaid subscription with 24, 36 month prices available upon request
- Omnissa Intelligence is sold as an add-on to Workspace ONE UEM Standard or Advanced editions
- Device / User numbers for Omnissa Intelligence must match the core Workspace ONE UEM deployment
