

Amazon WorkSpaces pricing

Overview

Pricing across WorkSpaces capabilities are designed to be flexible and cost-effective, allowing you to pay for the resources you need without over provisioning. WorkSpaces capabilities support a wide range of use cases and budget requirements.

Topics

Desktop as a Service (DaaS)

Allows you to pay for usage based on monthly subscriptions or hourly metering. Includes everything needed to deliver virtual desktops to your employees.

→

Secure browsers

Pricing is based on a flat monthly fee per active user including up to 200 hours of streaming per user, with a nominal fee charged for every hour over 200

→

Applications

Only pay for resources that you provision plus a small monthly fee per end user depending on the operating system chosen.

→

Thin clients

Includes an upfront payment for the device plus a monthly service fee to manage, monitor, and maintain your thin client fleet.

→

VDI partners

Allows you to pay for usage based on monthly subscriptions or hourly metering. VDI software from Citrix, Dizzion, Leostream, Omnisia, and Workspot must be purchased separately.

→
