## Pricing principles

There is no charge to buyer and supplier users that use multi-buyer portal. All the costs are met by the owner of the portal who signs this contract.

## Fees

The fees are described below:

| Fee description                                                                                                                                                                                                                                                                                                                                                                                                                                        | Price                                                                                                                               |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| <b>Implementation fee – one-off</b><br>This covers all work required to take the portal from concept / requirements to a live version ready for use                                                                                                                                                                                                                                                                                                    | £145,000 to £300,000                                                                                                                |
| <b>Annual recurring fee</b><br>This covers: <ul style="list-style-type: none"><li>• Hosting charges</li><li>• Use of the portal by an unlimited number of purchasing authorities</li><li>• Use of the portal by an unlimited number of supplier users</li><li>• An unlimited number of notices</li><li>• Access to all the portal features outlined in the service definition document as standard</li><li>• Access to customer support team</li></ul> | £160,000 to £300,000 per year depending on specific requirements                                                                    |
| <b>Enhancements – one-off / annual fee</b><br>We provide fully-costed proposals to address requirements for functional enhancements to the standard portal solution. Any related annual fee uplift is calculated as part of the proposal.                                                                                                                                                                                                              | Daily rate of up to £1,300 for project design and implementation.<br>Annual fee uplift dependent on nature and scale of enhancement |

All prices are exclusive of VAT and may be subject to annual uplift in alignment with inflation.

In the event of off boarding, separate Exit fees will be payable, although these will depend on each client's requirements. Please refer to our service definition document for more details on options available.

Prices quoted above provide our standard offering as outlined in the service definition document. We can develop and enhance our service offering depending on our client's requirements and will be happy to discuss these on a case by case basis. These changes will be charged outside of the proposed prices above.
