PART A: DBU List Price

PART B: Platform Services Usage Commitment Volume Based
Discount Table

PART C: Enhanced Security and Compliance Add-Ons

PART D: Databricks Support Services

PART E: Databricks Training

PART F: Databricks Professional Services Offerings & Packages

PART G: Databricks Professional Services Rate Card

PART A: DBU List Price

The products listed under Part A are available on a pay as you go (“PAYGO”) basis billed monthly in arrears.

A Databricks Unit (DBU) is a normalised unit of processing power on the Databricks Lakehouse Platform used for measurement and pricing purposes. The number of DBUs a workload consumes is driven by processing metrics, which may include the compute resources used and the amount of data processed.

Databricks prices may vary based on geographic region and cloud service provider as listed in the tables below

PART A - Table 1: AWS – DBU PAYGO List Price				
Cloud Provider	Product Family	SKU	Entitlement Tier	
			Premium (per DBU)	Enterprise (per DBU)
AWS	All Purpose Compute	AWS All-purpose compute	\$0.66	\$0.78
AWS	All Purpose Compute Photon	AWS All-purpose compute (Photon)	\$0.66	\$0.78
AWS	Jobs Compute	AWS Jobs Compute	\$0.18	\$0.24
	Jobs Compute Photon	AWS Jobs Compute (Photon)	\$0.18	\$0.24
AWS	DLT Compute	AWS DLT Core Compute	\$0.24	\$0.24
		AWS DLT Pro Compute	\$0.30	\$0.30

PART B: Platform Services Usage Commitment Volume Based Discount Table

The products listed above are available on a pay as you go basis billed monthly in arrears. However discounts are available in exchange for Platform Services Usage Commitments on the terms set out below which will be incorporated into the Order Form and Schedule 2: Call-Off Contract charges of the Call-Off Contract.

The Platform Services Usage Commitment Volume Based Discounts are based on the Total Platform Services Usage Commitment of the contract for 12-, 24- and 36-months term. The Usage Commitment Platform Services Volume Based Discount will be applied against the List Price(s) indicated in PART A: DBU List Price. The discounts are applied to the AWS or GCP Cross service discount group.

Example:

On a 12-month contract with a Total Contract Value of \$450,000 as a Platform Services Usage Commitment on the terms set out in Annex 1 below, the Buyer would be entitled to 9% discount. If the Buyer's chosen deployment was AWS All-purpose compute (Photon) on the Enterprise Entitlement Tier the 9% discount would be applied against the List Price of \$0.65, giving a price of \$0.59 per AWS All-purpose compute (Photon) DBU.

	AWS/GCP Cross service discount
--	--------------------------------

Annualized Universal Commit	1 year	2 year	3 year
< \$250K	7%	8%	9%
\$250K - \$500K	9%	10%	11%
\$500K - \$1M	11%	12%	14%
\$1M - \$2.5M	13%	14%	16%
\$2.5M - \$5M	15%	16%	18%

Annex 1 – Usage Commitment Pricing Annex

This Usage Commitment Pricing Annex supplements the Call-Off Contract entered into between the Parties.

1. Usage Commitment Pricing Annex Definitions. Capitalised terms have the meanings set forth in the Call-Off Contract or unless otherwise defined in this Annex.

- a “Advance Payment”** means the full Usage Commitment for the relevant Contract Year.
- b “Contract Year”** shall mean:
 - i [Contract Year 1: XXXX
 - ii Contract Year 2: XXXX
 - iii Contract Year 3: XXXX]
- c “Discount”** shall mean the relevant discount for the applicable Platform Service set out in Schedule 2 of the Call-Off Contract which is taken from the Supplier Pricing Document on the Digital Marketplace based on the Total Platform Services Usage Commitment during the Term.
- d “Term”** shall mean the initial Term of this Call-Off Contract and in the event of any extension any new Term specifically agreed.
- e “Total Usage Commitment”** shall be all of the Usage Commitments combined being [\$x].
- f “True-Up Payment”** means an amount equal to the Total Usage Commitment less the total Usage Commitment Fees paid during the Usage Term.
- g “Usage Commitment”** shall mean as relevant:
 - i [Contract Year 1: \$XXXX NOTE: this would include Platform Services, and if applicable any Support Services and/or Advisory and Training Services
 - ii Contract Year 2: \$XXXX NOTE: this would include Platform Services, and if applicable any Support Services and/or Advisory and Training Services
 - iii Contract Year 3: \$XXXX NOTE: this would include Platform Services, and if applicable any Support Services and/or Advisory and Training Services
- h “Usage Commitment Fees”** means the following fees, which count towards the relevant Usage Commitment:
 - (a) Advance Payments paid to Supplier for each Contract Year (excluding amounts applied to taxes in accordance with section 9 of the Call-Off Contract) during the Term;
 - (b) the fees paid for use of Services incurred (excluding amounts applied to taxes in accordance with section 9 of the Call-Off Contract, and net of any applicable discounts and refunds) in excess of the Advance Payments during the Usage Term.

2. Discount.

- a** The Buyer acknowledges and agrees that the Discount is being granted in exchange for the Total Usage Commitment being made by the Buyer on the terms set out in this Annex of the Call-Off Contract.
- b** The Supplier will apply the Discount to fees for use of Services during the Term of this Call-off Contract provided the Buyer complies with the terms of this Annex and Call-Off Contract. The Supplier will apply any discount expressed as a percentage to pricing for the Services detailed in the Supplier’s Pricing Document on the Digital Marketplace.

- c The discounting under this Annex may not be combined with any other discounts (including with any discounts on the Supplier's site).

3. **Advance Payments and Billing.** The Buyer shall make an Advance Payment of the Usage Commitment for each Contract Year according to the payment terms agreed in this Call-Off Contract. Databricks reserves the right to accelerate the Advance Payment schedule billing of fees for the Usage Commitment(s) (and associated support Services, if any) if Buyer's usage exceeds the related amount for which it has been billed. Additionally, if Buyer's usage exceeds the applicable Total Usage Commitment, fees for such excess Services usage (and for associated support Services, if any) shall be billed monthly in arrears, and such usage shall be subject to the Discount the Buyer receives under paragraph 2 above during the Term. Except where accelerated billing has occurred, Advance Payments will not be applied to any fees or any taxes incurred before the Contract Year to which the Advance Payment relates.
4. **Usage Commitment.** If the total Usage Commitment Fees incurred during the Term are less than the Total Usage Commitment, then the Buyer will pay the Supplier a True-Up Payment at the End of this Call-Off Contract. For the avoidance of doubt, if Advance Payments are accelerated at any point during this Call-Off Contract as set out above, then whether a True-Up Payment is due will be calculated based on whether the total Usage Commitment Fees paid during the Term are less than the Total Usage Commitment: in the event they are then the Buyer will pay the Supplier a True-Up Payment equivalent to that difference.
5. **Payments.** The Buyer will pay all amounts due in U.S. dollars. The Buyer will pay all amounts in accordance with the payment terms of the Call-Off Contract. All payment obligations under this Annex will survive expiration or termination.
6. **Advance Payment Balance.** During the Term, the Supplier will apply the then remaining balance of the Advance Payment ("**Balance**") to Charges and any taxes for use of Services during the relevant Contract Year. The Advance Payment including any Balance is nonrefundable, will not reduce the Buyer's future Advance Payment (if applicable), and is not a deposit for or credit toward the purchase of any services after the Term. After the Term, the Supplier will invoice the Buyer for an amount equal to any Balance of the Advance Payment, and such Balance will be applied against such invoiced amount.
7. **Termination.**
 - a **Termination by the Buyer.**
 - i If the Buyer terminates this Call-Off Contract for cause in accordance with the Call-Off Contract, any True-Up Payment obligations arising after the effective date of such termination will not apply. If applicable, the Supplier will refund the Balance of any Advance Payment paid to the Supplier for the Contract Year of such termination, less any incurred and unpaid fees for the Services as of the effective date of such termination.
 - ii If the Buyer terminates this Call-Off Contract for convenience in accordance with the Call-Off Contract, the following process will apply:
 - a If the Buyer has met the Total Usage Commitment during the Term prior to such End, then no True-Up Payment will be required to be made to the Supplier;
 - b If Buyer has not met the Total Usage Commitment during the Term prior to such End, then the True-Up Payment shall be due as set out in paragraph 4 above.
 - b **Termination by the Supplier.** If the Supplier terminates the Call-Off Contract for cause in accordance with the Call-Off Contract, the Buyer will pay the Supplier an amount equal to the sum of the Total Usage Commitments plus any Services consumed over the Total Usage Commitment during the Term less the Advance Payment(s) or other payments the Buyer paid for Services during the Term as of the effective date of termination. Following such payment, any True-Up Payment obligations arising after the effective date of such termination will not apply.

PART C: Enhanced Security and Compliance - Add-ons

Enhanced Security and Compliance is available for purchase as an add-on to Buyers that have entered into a Usage Commitments contract as described above in Part B. The Buyer will benefit from the discounts listed in Part B and such discounts will be applied against the List Price included in the tables below. All the terms included in Part B - Annex 1 will apply to purchases of the Enhance Security and Compliance - Add-on.

PART C - Table 1: AWS – Enhanced Security and Compliance	
Add-On Product	Entitlement Tier on which the Add-on Product is available
AWS - Enhanced Security and Compliance List Price	Enterprise
	15% of Product Spend* before discounts

*Product Spend is calculated based on AWS product spend at list, before the application of any discounts, usage credits, add-on uplifts, or support fees.

PART C - Table 2: GCP – Enhanced Security and Compliance	
Add-On Product	Entitlement Tier on which the Add-on Product is available
GCP Enhanced Security and Compliance List Price	Premium
	10% of Product Spend* before discounts

*Product Spend is calculated based on GCP product spend at list, before the application of any discounts, usage credits, add-on uplifts, or support fees.

PART D: Databricks Support Services

Databricks provides a number of support options on AWS and GCP to Buyers who enter into a Usage Commitment (as defined in the Part B) that provide them with dedicated support and timely service for the Databricks platform. The purchase of Databricks Support Services gives the Buyer the option to raise support tickets.

Databricks Support Services can only be purchased on contracts where Buyer has entered into a AWS and/or GCP Usage Commitment. Databricks Support Services can be purchased within the initial Usage Commitment Call-Off Contract or they can be purchased at a later date as an Amendment Usage Commitment Call-Off Contract to the initial Usage Commitment Call-Off Contract. Databricks Support Services cannot be purchased as a stand-alone product.

Databricks Support Services must match the term of the Call-Off Contract if the Databricks Support Services is purchased within the initial the Usage Commitment or if Databricks Support Services are purchased at a later date the term of the Amendment Usage Commitment Call-Off Contract on which the Databricks Support Services is purchased cannot exceed the initial Usage Commitment Call-Off term. The Charges for Support Services shall be included in the Usage Commitment and the terms set out above in Annex 1 shall be included in the Order Form and Schedule 2: Call-Off Contract charges of the Call-Off Contract.

Part D - Table 1: AWS Support Services Pricing	
SUPPORT LEVEL	Pricing Annual / Upfront
AWS Business Support	Greater of \$2,500/year or 15% of annual AWS product commit
AWS Production Support	Greater of \$60,000/year or 25% of annual AWS product commit
AWS Mission Critical Support	Greater of \$120,000/year or 35% of annual AWS product commit

Part D - Table 2: GCP Support Services Pricing	
SUPPORT LEVEL	Pricing Annual / Upfront
GCP Business Support	Greater of \$2,500/year or 15% of annual GCP product commit
GCP Production Support	Greater of \$60,000/year or 25% of annual GCP product commit
GCP Mission Critical Support	Greater of \$120,000/year or 35% of annual GCP product commit

Part D - Table 3: Multi Cloud Support Services Pricing	
SUPPORT LEVEL	Pricing Annual / Upfront
Multi Cloud Production Support	Greater of \$60,000/year or 25% of annual product commit
Multi Cloud Mission Critical Support	Greater of \$120,000/year or 35% of annual product commit

Customers can purchase Multi Cloud Support on a Databricks contract which include both AWS & GCP Usage Commitments. The price of Multi Cloud Support will be calculated considering the Usage Commitment on both AWS & GCP.

Customers that purchase Production Support or Mission Critical Support have the option to also purchase as an add-on a Designated Support Engineer (DSE) subscription. Subscriptions have a minimum commitment term of at

least 12 months which shall be set out on the Order Form of the Call-Off Contract and are non-refundable in the event of termination for convenience.

Part D - Table 4: Designated Support Engineer Pricing		
Designated Support Engineer (DSE) subscription type	Price Annual / Upfront	Engagement level
Support DSE Silver	\$90,000 per year	Up to eight (8) hours per Week
Support DSE Gold	\$170,000 per year	Up to sixteen (16) hours per Week
Support DSE Platinum	\$325,000 per year	Up to thirty-two (32) hours per Week

PART E: Databricks Training**

Part E - Table 1: Instructor Led Courses Pricing			
Instructor Led Courses – Private Classes			
Product	Days	Number of Attendees	Price
Private ILT Class – 1/2 day	0.5	up to 10	\$9,000.00

Part F - Table 1: Professional Services Offerings & Packages Pricing		
Professional Services Offerings & Packages		
Assurance Services:	Offering Duration (weeks)	Price
Assurance - Arch and Best Practices Assessment	1	\$15,600.00
Assurance - Architectural Design Review	4	\$40,800.00
Assurance - MLOps Best Practices	4	\$36,000.00
Assurance - Data Eng Support	8	\$50,400.00
Assurance - Delta Use Case Acceleration	6	\$50,400.00
Assurance - Streaming Use Case Acceleration	6	\$50,400.00
Enterprise-Readiness Review	4	\$38,400.00
DevOps Best Practices	2	\$30,000.00
Migration Assurance: Silver	8	\$120,000.00
Migration Assurance: Gold	20	\$300,000.00
Migration Assurance: Platinum	48	\$600,000.00
Migration Assurance - Global Delivery Center Silver	8	\$48,000.00
Migration Assurance - Global Delivery Center Gold	20	\$124,800.00
Migration Assurance - Global Delivery Center Platinum	48	\$249,600.00
Unity Catalog Migration Assurance	12	\$120,000.00
Unity Catalog Migration Assurance - Global Delivery Center	12	\$48,000.00
Well-architected Lakehouse Review For Enterprise	3	\$61,200.00
Data Estate Optimization	4	\$49,200.00
GenAI Advisory	1	\$24,000.00
Delivery	Offering Duration (weeks)	Price
Unity Catalog Reference Implementation	3	\$50,400.00
Data + AI Assessments Standard	1	\$25,200.00
Data + AI Assessments Enterprise	2	\$50,400.00
Jumpstart 5-days	1	\$15,000.00
Jumpstart 10-days	2	\$30,000.00
Hadoop Migration Foundation	4	\$96,000.00
Hadoop Migration Extended	2	\$44,400.00
Hadoop Migration Optimized	2	\$42,000.00
EMR Production Workloads Migration Foundation	4	\$84,000.00
EMR Production Workloads Migration Extended	2	\$44,400.00

EMR Production Workloads Migration Optimized	2	\$42,000.00
Multicloud Migration Foundation	7	\$96,000.00
Multicloud Migration Extended	4	\$60,000.00
Multicloud Migration Optimized	3	\$42,000.00
Lakehouse Build-out Optimized	5	\$85,800.00
Lakehouse Build-out Foundation	3	\$74,400.00
Lakehouse Build-out Extended	3	\$64,800.00
Cyber Lakehouse Buildout Foundation	3	\$74,400.00
Cyber Lakehouse Buildout Extended	3	\$64,800.00
Cyber Lakehouse Buildout Optimized	5	\$85,800.00
Streaming Analytics Foundation	2	\$50,400.00
Streaming Analytics Extended	2	\$55,200.00
Streaming Analytics Optimized	2	\$55,200.00
ML Model MVP	3	\$56,400.00
MLOps Optimized	3	\$56,400.00
SQL - MVP	3	\$30,000.00
GenAI Optimized	4	\$72,000.00
GenAI MVP	4	\$63,600.00
Observability Jumpstart	1	\$15,000.00

All of the above packages are non-refundable in the event of termination for convenience.

Part F - Table 2: Coaching / Subscription Based Packages Pricing		
Coaching / Subscription Based	Offering Duration	Price
Guided Success Subscription Silver (Annual)	1 (Year)	\$120,000.00
Guided Success Subscription Gold (Annual)	1 (Year)	\$228,000.00
Guided Success Subscription Platinum (Annual)	1 (Year)	\$432,000.00
RSA Subscription Silver (Annual)	1 (Year)	\$180,000.00
RSA Subscription Gold (Annual)	1 (Year)	\$324,000.00
RSA Subscription Platinum (Annual)	1 (Year)	\$600,000.00
Lakehouse CoE Silver (Annual)	1 (Year)	\$536,400.00
Lakehouse CoE Gold (Annual)	1 (Year)	\$907,200.00
