Heimdal®

Extended Detection & Response (XDR) - Unified Security Platform

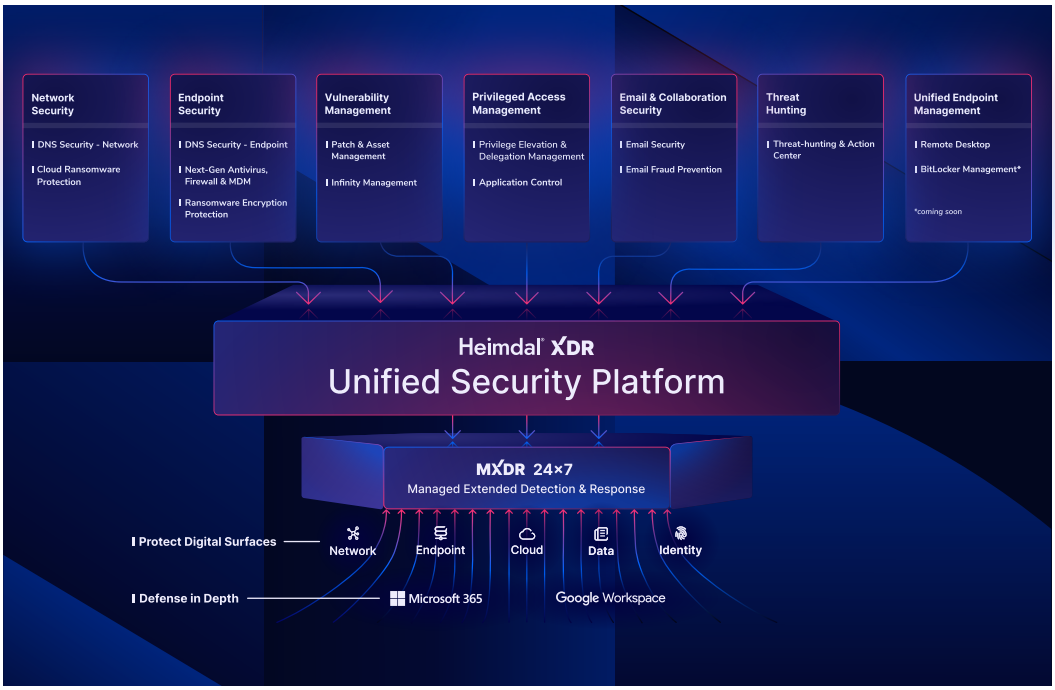
Solutions Brief

One Platform. Total Security.

In today's rapidly evolving threat landscape, relying solely on traditional security measures is insufficient. Embracing Extended Detection and Response (XDR) is essential for organizations to safeguard against cyberthreats across diverse endpoints, networks, and cloud environments. XDR solutions delivers comprehensive visibility and a unified security platform, empowering you to stay ahead of sophisticated attacks and protect your valuable data and assets.

The Heimdal XDR stands at the forefront of cybersecurity innovation, providing organizations with a powerful solution to proactively detect, respond to, and mitigate advanced threats across their entire digital landscape. In an era of escalating cyberattacks, traditional security measures and the management of disparate tools fall short. With Heimdal XDR, you gain a comprehensive and unified approach to cybersecurity, safeguarding your organization's critical assets, people, and data against the relentless evolution of threats.

The Heimdal XDR Suite – Powered by Our Unified Security Platform Empowering CIOs, CISOs and IT Professionals at all Levels



KEY FEATURES

- Widest XDR suite in the industry, featuring our 10-in-1 award-winning solutions
- Single unified console for managing all products across multiple attack surfaces
- Advanced threat intelligence powered by AI/ML, leveraging MITRE ATT&CK techniques, crowd-sourced intelligence, and supported by our human experts
- Cloud-native architecture with 99.9% uptime and no impact on system performance
- Instant solution deployment within minutes
- Deep, native bi-lateral telemetry between products, inventory, users and processes
- Dedicated Threat Hunting and Automated Response capabilities included
- Complements Microsoft 365 or Google Workspace environments
- Optional on-demand Managed SOC services available
- World-class support and dedicated customer service

Heimdal®

Unlock the Power of Heimdal XDR

Breaking Down Silos to Transform Cybersecurity Defenses

ADVANCED THREAT DETECTION

Heimdal XDR leverages advanced analytics, AI/ML, and behavioral analysis to identify and flag even the most evasive and sophisticated cyber threats. By continuously monitoring endpoints, networks, identities, vulnerabilities, emails, and cloud environments, Heimdal XDR provides real-time threat detection and alerts, enabling swift action to mitigate potential damages.

PROACTIVE THREAT HUNTING

Our solution goes beyond reactive measures by enabling proactive threat hunting. The powerful correlation engine (Extended Threat Protection - XTP Engine) and native threat intelligence capabilities of Heimdal XDR allow security teams to proactively search for indicators of compromise (IOCs) and uncover hidden threats, enhancing your organization's overall security posture.

SUPERCHARGE INCIDENT RESPONSE

Heimdal XDR streamlines incident response processes with automated workflows, guided remediation, and orchestration capabilities. With instant deployment within your environment, our platform empowers your security team to respond swiftly and effectively, minimizing the impact of security incidents.

COMPREHENSIVE VISIBILITY AND UNIFIED CONSOLE

Gain a holistic view of your organization's security landscape with Heimdal XDR's centralized console. Monitor and manage endpoint health, networks, cloud environments, and user identities from a single pane of glass, simplifying security operations and improving efficiency.

ADAPTIVE SECURITY CAPABILITIES

Heimdal XDR evolves alongside emerging threats, adapting to new attack vectors and techniques. Regular updates from our expert malware analysts and threat intelligence engine ensure that your organization remains resilient against the ever-changing threat landscape.

STREAMLINE COMPLIANCE AND REPORTING

Heimdal XDR provides detailed compliance trails, assisting your organization in meeting regulatory requirements. Generate comprehensive reports on threat incidents, response activities, and compliance status effortlessly, supporting audits and providing valuable insights for decision-making.

Why choose the Heimdal as your security partner?

Heimdal is an industry-leading unified and AI-powered cybersecurity solutions provider established in Copenhagen in 2014.

With an integrated approach to cybersecurity, Heimdal has dramatically boosted operational efficiency and security effectiveness for over 15k+ customers globally.

Heimdal empowers CISOs, Security Teams, and IT admins to enhance their SecOps, reduce alert fatigue, and be proactive using one seamless XDR security platform.

Our award-winning line-up of 10+ fully integrated cybersecurity solutions span the entire IT estate, allowing organizations to be proactive, whether remote or onsite.

That's why our XDR suite and managed services offer solutions for every attack surface, whether at the Endpoint or Network, in Vulnerability Management, Privileged Access, implementing Zero Trust, thwarting Ransomwares, preventing Business Email Compromises, and much more.

"We would recommend Heimdal to our industry peers, as well as any other enterprise looking to streamline and enhance their security operations. The main reason for this is Heimdal's unified XDR approach to their suite of products, covering all security needs for an organization."
