

Arctic Wolf® Aurora™ Endpoint Security

OUTCOME-DRIVEN ENDPOINT SECURITY

Aurora Endpoint Defense

Stop threats before they disrupt your business with Aurora Endpoint Defense's market-leading Alpha AI-driven protection, detection, and response capabilities.

Simple and Effective

Powered by Alpha AI, Aurora Endpoint Defense prevents attacks before they start. Plus, detect and respond to any additional threats with 24x7 monitoring from the world's largest commercial SOC.

Built for You

We empower our customers to optimize their security spend by delivering the best performance-to-price ratio for endpoint security solutions in the market.

Security Journey®

Move from tactically responding to your endpoint security to a broader security program to assess, mitigate, and transfer cyber risk.

Combine the power of three technologies to drive down cyber risk.

- Endpoint Protection Platform
- Endpoint Detection and Response
- Alpha AI for Endpoint

The Cybersecurity Landscape

Today, organizations are exposed to more cyber risk than ever. In fact, at least seven out of 10 organizations believe that their sensitive data was compromised or breached in the past 12 months.

Organizations have invested their time, energy, and budget on multiple security tools and point solutions to try to solve this challenge. This strategy, however, has yielded negative returns due to alert fatigue, skill shortage, and ineffective security responses.

To address this challenge, what's needed as a foundation is a simple, highly effective endpoint solution and a security operations partner that work together, enabling organizations to spend more time achieving consistent cybersecurity outcomes and building cyber resilience.

Aurora Endpoint Defense provides AI-driven security, detection, and response to stop endpoint threats before they disrupt your business. It's designed to be easy to use and highly effective — whether on its own or with 24x7 monitoring — with flexible deployment options so you can strengthen your defenses without overloading your team.

Take the Right Approach

Aurora Endpoint Defense

Drive your own security outcomes by combining the power of market-leading prevention with exceptional detection and response capabilities.

Aurora Managed Endpoint Defense On Demand

Get assistance maintaining your deployment and request on-demand security expertise to investigate threats and guide remediation.

Aurora Managed Endpoint Defense

Get assistance maintaining your deployment and 24x7 monitoring, alert triage, and response actions delivered by Arctic Wolf's SOC.

Get the Assistance You Need To Operationalize and Maintain Your Endpoint Security

Aurora Endpoint Onboarding

Optimize time to value by leveraging the experience of Arctic Wolf deployment engineers.

Aurora Premium Support

Get technical support 24x7 and guided troubleshooting for technical issues.

Outcome-Driven Endpoint Security

20x
▼

Powered by Alpha AI for Endpoint, Aurora delivers top-tier efficacy ratings while maintaining ultra-low resource usage — **20x less CPU utilization than competing solutions** — even when offline.

90%
▼

Speed up your investigations and reduce tedious security analyst demands with **30% faster incident investigation and 90% reduction in alert fatigue**.

100%

Provides **100% return on investment**, according to Forrester Total Economic Impact™ Report.

End Cyber Threats with the Endpoint Detection Response Capabilities of Aurora Endpoint Defense

Data Collection and Exploration

- Endpoint activity data
- Forensic-grade log collection

Threat Detection and Response

- Suspicious activity detection
- Malware
- Fileless threats (memory-based infections)
- User behavioral analysis
- Identity-related threat patterns
- Alert triage / incident investigation

Response Actions

- Contain / uncontain endpoints
- Terminate / suspend processes
- Terminate / suspend process trees
- Log out users
- Create forensic data packages

About Arctic Wolf

Arctic Wolf® is a global leader in security operations, enabling customers to manage their cyber risk via a premier cloud-native security operations platform. The Arctic Wolf Aurora™ Platform ingests and analyzes more than eight trillion security events a week to help enable cyber defense at an unprecedented capacity and scale, empowering customers of virtually any size across a wide range of industries to feel confident in their security posture, readiness, and long-term resilience. By delivering automated threat protection, response, and remediation capabilities, Arctic Wolf delivers world-class security operations with the push of a button.
