Gartner

Optimize execution to deliver faster and more efficiently

Connect tools and teams in one collaborative space, where cross-functional projects, processes, and resources are managed at scale - and accelerated by AI and automations.

Drive org-wide alignment and agility

Implement best practices and standardize processes across departments, all while maintaining agility to navigate organizational changes in response to new opportunities and market shifts.

Gain full visibility to make informed decisions

Empower informed decision-making with real-time visibility into progress, performance, and budget across your portfolio. Identify risks with AI and quickly implement effective mitigation plans with live data always within reach.

Get the most out of your workforce

Plan, manage and assign resources effectively so you always have the right people for the job. Gain an overview of all of your assignments to identify conflicts and balance workloads.

Manage everything in one place for maximum visibility and alignment

Goals and
OKRs

Achieve results faster with monday work management

Flexibility

Autonomous teams, standardized frameworks

Supporting hundred of use cases in over 200 industries

Speed to value

Launch, iterate, and scale quickly

The Total Economic Impact™ Forrester study reports less than a 4 month payback period

Rapid adoption

Get everyone on the same page

Awarded Highest User Adoption for Enterprises by G2

We have dozens of complex projects going on at any given time. monday.com has given us the visibility we need to **get everyone on the same page and keep track of all the moving parts.**

Jason Doan

VP of Heavy Rental and Sales Operations
